HOW DO I BECOME A MEDICAL INTERPRETER?

The Community Interpreter (TCI) is the leading program for medical interpreters in the US. Vocalize Columbus will be hosting a session of TCI: Medical Focus in May 2023 for speakers of ANY language. This 40-hour program is highly interactive, skills-based, and incorporates the latest advances in the field.

REQUIREMENTS:

✓ Before:

Take a language assessment. We recommend the Parrot Test. Please email us for alternate testing options if your language is not provided. The cost of the assessment will be reimbursed up to \$100 with documentation of a passing score and completion of our program.

✓ After:

All interpreters must sign a contractual agreement to volunteer remotely with Vocalize Columbus for at least 25 hours within 6 months.
