Falling in Love with Earth Again

Presented by the
Dominican Alliance Eco-Justice Committee
Saturday, September 10
9:00 AM-3:00 PM

Join the Dominican Alliance Eco-Justice Committee for a reflective day considering our deeply embedded relationship with Earth, our home. The day will present us with different avenues that can remind us of who we are as a part of this living Earth and renew our embodied human selves. Spend time with others pondering, celebrating, and creating your loving connection with Earth.

The **Dominican Alliance Eco-Justice Committee** is a consortium of representatives of seven congregations of Dominican women around the U.S. (including the Dominican Sisters of Peace) who link their energy, resources, and personnel to educate others about our relationship with and responsibility to Earth.

A freewill offering will be collected, with a box lunch included. Please register by September 1.
