

2019 Project Market Rabbits - \$25 each

We breed purebred Californian (Cal) and New Zealand White (NZW) Market rabbits that exhibit excellent meat and fur qualities. These rabbits are proven to be very competitive in the show ring. Project rabbits are bred specifically for your Fair as maximum weight limits determine required age of the rabbits. We do have a breeding program in place for all County Fairs in Ohio from early fairs like Pickaway County starting mid-June to Fairfield County starting in early October.

- We provide an educational discussion at pickup covering expected care, expected growth, judging, faults and what a good market rabbit looks like.
- Rabbits are not assigned. They are selected by the exhibitor with help from their trusted advisors if desired.
- Each project comes with a “care kit” with starter feed and other items for continued project success.
- For better project continuation, their feed is available at pickup in 25 and 50-pound quantities. Current price is \$14/50 pound and \$7/25 pound.
- Feed supplement is available that aids in firmness of the rabbits which is critical in competition “Condition of Flesh”. Current price is \$4/4 pound.
- We will provide close estimates on expected feed consumption and feed supplement required if desired.
- For more Farm information visit our websites at; www.sliverpond.com , www.marketrabbits.com, www.californianrabbits.com
- Reservations accepted starting February 1 each year

To Reserve call/text Tony at (419) 560-1877

Or email: tony@sliverpond.com

Please provide Fair name, maximum rabbit weight and tattoo check-in date.
