

# Agricultural Fertilizer Applicator Certification

Specifically for those NOT holding a fertilizer applicator's certificate, although those that do may also attend.

## **Fulfills certification requirements**

This meeting will fulfill the training requirement for all applicators needing a Fertilizer Applicator Certificate.

## **Who needs the agricultural fertilizer certification?**

Fertilizer certification is required if you apply fertilizer (other than manure) to more than 50 acres of agricultural production grown primarily for sale. If you hire a co-op or other custom applicator to make your fertilizer applications, you do not need the certification.

## **What will be covered in the training?**

Best management practices will be the basis of the agricultural fertilizer certification training with a focus on fertilizer applications that have the appropriate rate, timing, placement and source.

Thursday,

**September 7, 2017**

**6:00 to 9:00 p.m.**

Elizabeth Township Community Center  
5760 Walnut Grove-Clark County Road  
Troy, Ohio 45373
