Agricultural Imaging

Is 2015 the breakout year?

The speaker, Chad Colby has become the leading advocate in Agriculture Industry, focusing on the upcoming practical use of unmanned aerial systems. Over the past couple years he has been featured all over the United States and Canada speaking at various events. His presentation "Drone is Agriculture, the Next Phase in Precision Farming" has been featured by John Deere, Monsanto, Ag PhD, Case IH, Dekalb, Cargill, National Association of State Departments of Agriculture and many others. He's also a featured guest on the TV program This Week In Agribusiness sharing the latest in Ag Technologies. In 2015 you will see him presenting at various major industry events including AUVSI, InfoAg, Farm Progress Show, and Commercial UAV Expo. Don't miss the special opportunity, learn more on his blog site www.agtechtalk.net

Join this special VIP event to learn the latest about Unmanned Aerial System technology.
