

# Farm Solar Power

## Hardin County Twilight Tour

Jerry McBride Farm

- Find out about Jerry McBride's system & other real-life examples on Ohio farms
- Learn how SOLAR POWER helps farms & businesses seize control of electricity costs
- Solar power basics: Replacing your purchased electricity with your own juice you generate
- No batteries needed. "Sell" your excess energy back to the utility
- Sizing a solar power system to your needs
- The incentives – including tax credits, accelerated depreciation and USDA grants

Thursday  
**July 16**

7:00-8:30 pm
