

This is the Extension Agriculture and Natural Resources (ANR) Winter 2016 schedule of events for the Top of Ohio Extension Education Research Area (EERA). Each individual county is unable to offer everything in one winter season but by working together, we are able to include a comprehensive list of programs to meet the needs of our EERA.

The following counties are included on the schedule. Please note the county abbreviation in parentheses that is used on the calendar. Due to the number of events, we are only able to include the date, title and time of each events. Many do have registration requirements so please contact the county educator listed below for more details on the programs.
