Ohio Crop Weather

May 6, 2019

Rain Continued to Stall Planting

Little to no fieldwork was completed last week due to the continued extremely wet weather, according to Cheryl Turner, State Statistician, USDA NASS, Ohio Field Office. There were 0.6 days suitable for fieldwork in Ohio during the week ending May 5. There were multiple reports of zero days suitable for fieldwork last week. There had been some additional flooding and soils were extremely saturated, causing more delays in the planting season. **Winter wheat** condition remained mostly fair and there were concerns of weed pressure due to the wet weather. There was very little opportunity to get any **corn** or **soybean** planting done last week. **Oat** planting and emergence was slowly moving along. Despite wet weather, pastures condition were mostly fair to good.

Soil Moisture: Week Ending 05/05/19

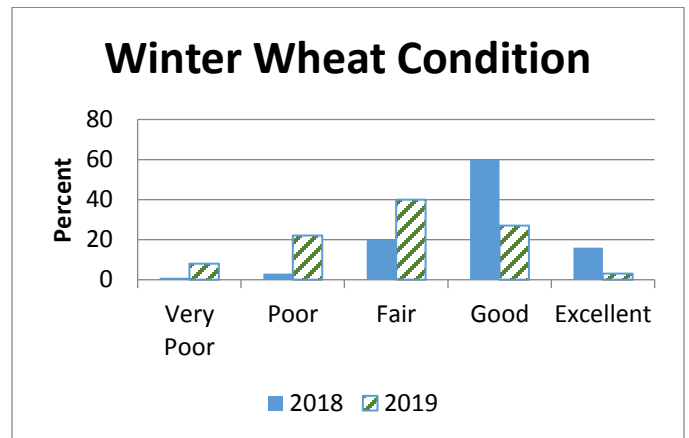

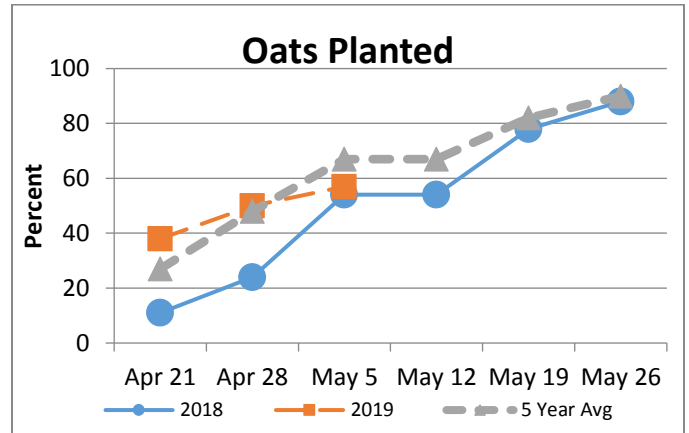

Item	Very short	Short	Adequate	Surplus
	(percent)	(percent)	(percent)	(percent)
Topsoil moisture	0	0	17	83
Subsoil moisture	0	0	23	77

Crop Progress : Week Ending 05/05/19

Crop/Activity	Percent Completed			
	This week	Last week	Last year	5 Year Average
Days Suitable for Fieldwork ..	0.6	1.1	NA	NA
Corn Planted	2	2	20	27
Soybeans Planted	1	1	7	9
