**THE OHIO STATE
UNIVERSITY**

EXTENSION

HARDIN COUNTY OSU EXTENSION

Soil Health Workshop Series

April 4 – (Beginner) Topics include soil ecology and nutrient recycling, dealing with soil compaction, putting an economic value on soil health, keeping nutrients in the soil, and getting started with cover crops: clovers, legumes, grasses, and brassicas.

April 6 – (Advanced) Topics include setting up a no-till planter, adjusting to adverse weather, making no-till corn succeed, learning more about beneficial microbes, fertilizing for higher yields with micronutrients, using humic compounds to enhance fertilizer and plant growth, and dealing with pests (weeds, insects, and diseases).
