PUMPKIN FIELD NIGHT

THURSDAY, AUGUST 26, 5:30-7:30 P.M.

Join us as we host an in person Pumpkin Field Day outdoors geared for both new and experienced growers. Topics will include disease management, powdery mildew fungicide trial, hybrid variety trial, climate and weather impacts on agriculture, herbicide trial results with Reflex and other topics.

Key speakers include Dr. Aaron Wilson (Extension/Byrd Polar), Tony Dobbels (Horticulture & Crop Science), Jim Jasinski (Extension) and a special guest from Purdue University, Dr. Dan Egel (Plant Pathology).

Social distancing and mask wearing might be required for the outdoor event so come prepared. No beverages will be provided so bring your own.

Location: Western Ag Research Station, 7721 S. Charleston Pike, South Charleston, OH 45368

Cost: None

Details: Pre-registration required by 8/24
