

Ohio State volunteers work with the **Volunteer Income Tax Assistance program (VITA)**. Through this program, free income tax preparation assistance is available to Columbus citizens.

If you are a postdoc who is classified as a US resident for tax purposes and have an income range of \$60,000 and below, you are eligible for tax services through VITA.

To set up an appointment, call 2-1-1, which is the number for HandsOn Central Ohio. Tell the representative that you'd like to speak with someone through VITA to schedule a tax appointment, and they will redirect you. Appointments are based on volunteer availability and your schedule.

For more information about the services provided and what you should bring to your appointment, please visit the tax clinic site [here](#).
