

Working with *You* to Improve Ohio's Fish & Wildlife Habitat Resources

The U.S. Fish & Wildlife Service Partners for Fish & Wildlife Program is a voluntary conservation program working directly with private landowners, municipalities, counties, land trusts, school groups, tribes and numerous other conservation partners, to restore a variety of fish and wildlife habitats including working farms, forests, stream corridors, wetlands, prairies and recreation lands while promoting healthy lands and land stewardship across Ohio.

If you are interested in learning more about the Partners for Fish & Wildlife Program, please contact us at:
