

No need to put up with a bad

Legends Lane Reproductive Services will be offering Breeding Soundness Exams (BSE) on bulls this Spring. These exams are to be completed at our facility in Alexandria, OH.

Evaluating breeding soundness has become an often neglected management practice. The lack of these exams can result in a herd that is unsettled, and can often be rather costly to producers.

We will be offering Breeding Soundness Exams on **Wednesday, April 10th, 2019**. It is recommended that these exams be accomplished 30- 60 days prior to the breeding season. These exams will be \$50.00/ bull evaluated.

Utilizing our contact information listed below, please reach out with any additional questions or to schedule an appointment.

Basic Breeding Soundness Exams to include:

- Physical Examination
- Examination of Reproductive Organs
- Measurement of Scrotal Size
- Evaluation of Semen

Additional Services Available on Request:

- Disease Testing
- Vaccinations
- Deworming
- DNA Testing
