

Please enter the sap Brix values for up to 5 red/silver maple and 5 sugar maple trees in the fields below. Please repeat measurements for the 1st run, 2 weeks following the 1st run, and late in your 2024 sap season. Thanks for helping us in this study to explore potential spotted lanternfly impacts on our Ohio maple industry.

County \_\_\_\_\_ Date Tapped \_\_\_\_\_

Tree	Species (circle)	First Run	2 wks later	Late Run	SLF
1	Red Silver Sugar				yes no
2	Red Silver Sugar				yes no
3	Red Silver Sugar				yes no
4	Red Silver Sugar				yes no
5	Red Silver Sugar				yes no
6	Red Silver Sugar				yes no
7	Red Silver Sugar				yes no
8	Red Silver Sugar				yes no
9	Red Silver Sugar				yes no
10	Red Silver Sugar				yes no
