## Personal Statement

### *Seeking an entry level position in Information Technology or Software Development*

With a passion for problem solving, I have a unique academic background that includes both a humanities focus and extensive quantitative/scientific course work, resulting in a well-rounded mix of both analytical and communications skills.

My extra-curricular and leadership experiences have enhanced my interpersonal, presentation, and organizational skills, preparing me to be a productive member of any team. I am eager for an opportunity to apply my unique set of abilities and attributes to help an organization solve problems, optimize processes and provide benefits for their stakeholders.

## Education

### *The Ohio State University; Columbus, OH*

**Classics major with Computer Information Science minor** (December 2017 expected graduation)
