

Steven Quiring- Short Bio

Dr. Steven M. Quiring is a Professor in the Atmospheric Sciences Program, Department of Geography at The Ohio State University. He is also a Fellow at The Risk Institute at The Ohio State University Fisher College of Business and a member of the Translational Data Analytics Institute and the Sustainability Institute at Ohio State University. Prior to his arrival at Ohio State in 2016, Dr. Quiring spent 11 years at Texas A&M University. His research focuses on hydroclimatology, weather data analytics and modeling the impact of storms on electrical infrastructure. Dr. Quiring has published more than 90 journal articles and has received more than \$14M in funding from federal (DOE, NSF, NOAA) and state (TWDB and TXDEM) agencies, including an NSF CAREER award in 2010. Dr. Quiring is an Associate Editor for Physical Geography and Journal of Applied Meteorology and Climatology. Dr. Quiring received a BA(Hons.) in geography from the University of Winnipeg in 1999, a MA in geography from the University of Manitoba in 2001, and a PhD in climatology from the University of Delaware in 2005.
