

All About Goats Webinars

JOIN EXTENSION AND INDUSTRY PROFESSIONALS FOR THE FALL 2024 SERIES

Fencing and Pastures Sept. 23

During this session, experts will review various types of fencing and forage management systems that are suitable for browsing within goat operations.

Dairy Products Oct. 7

This session will describe the various types of dairy goat byproducts and explain how to manage your herd in relation to each product.

Custom Browsing and Grazing Oct. 21

Throughout this presentation, experts will discuss alternative browsing and grazing opportunities utilizing small ruminants as a business model for vegetation management and control.

Kidding Nov. 4

Join us as our speakers discuss helpful tips and tricks to ensure a successful kidding season through providing a better understanding of dystocia challenges and pre and post kidding needs.

Herd Estrus Synchronization and Artificial Insemination Nov. 18

This session will discuss estrus synchronization protocols and the use of artificial insemination for small and large goat operators.

Legality of Selling Goat By-Products Dec. 2

Experts will clarify the legality behind selling goat by-products and take a deeper dive into each of those products.

Introducing Dairy into a Meat Herd Dec. 16

For the last session of our series, our hosts will discuss the pros and cons of introducing dairy genetics into your meat goat herd.

**Webinars are hosted
via Zoom (7-8 p.m.)**
