- Teacher background- list of Korean Holidays

Key Idea:
Koreans celebrate many holidays based on both the lunar and solar calendar. Some holidays are similar to the holidays celebrated in the U.S.A.

Skills:
Application: Given web addresses, and materials needed for the assignment students will create a Korean Holiday calendar.

Synthesis: Students will predict why Koreans celebrate holidays such as Christmas, New Years, and Arbor Day and do not celebrate holidays such as Easter and Thanksgiving.

**Procedures:**

1. Introduce the lesson by asking students what holidays they celebrate and like best. Have students brainstorm holidays they think are celebrated in Korea. List on the board.

2. To develop critical thinking skills ask students why Christmas does not have the same religious significance in Korea as it does for many Americans as well as the significance of the 4th of July and Thanksgiving. (Korea does not have as many Christians and Christmas is a Christian holiday, the U.S. gained Independence on July 4, 1776 from Great Britain, and Americans celebrated the first Thanksgiving with Native Americans). Discuss these holidays and encourage students to research a Korean “thanksgiving” or Independence Day.

3. Handout instructions and explain they will research and compare Korean and American Holidays.

4. After the presentations discuss the relationship between the Korean and American holidays, such as the Korean Samil Independence Movement Day and America’s 4th of July, and the Korean Chuseok and the American Thanksgiving. Ask the students if they found any other similarities.

**Evaluation:**

Students will give oral presentation on their calendars with emphasis on one holiday they really like.

**Grade Adaptation:**
