

We are delighted to present  
our Keynote Speaker

**Julie Zickefoose**  
Writer, Artist and  
Naturalist

**Personal Habitat:  
Creating A Haven for Wildlife  
(and Yourself)**

This is the story of an artist's love affair with a piece of land, and the birds, animals and plants that inhabit it.

Simple habitat enhancements can take a backyard from bland to bustling with wildlife. In her slideshow presentation, Julie shares how she, and her husband, lovingly transformed their 80 acre abandoned farm into a wildlife sanctuary and observatory – and a perfect personal habitat.
