ABC Word Hunt-Learn to spell simple words with pictures

Best Practices that can be utilized with this App:

- Decision Making
- Appropriate for all ages when children are involved
- Age appropriate depending on adult's role

Adult developmental skills that can be supported with this App:

- Fine motor skill from using the iPad
- Reading
- Social engagement, which may include reminiscence
- Generativity if adult helps the child

This is a fact sheet on Apps that use emerging best practices associated with intergenerational programs.

Intergenerational programs are those that connect younger and older generations to foster positive experiences. Research continues to grow noting that when successfully delivered, intergenerational programs result in positive health effects, child learning, and appropriate socialization for both young and old (Jarrott, 2011).

For more information, check out the Best Practices in Intergenerational Programming fact sheets, available at

<http://www.intergenerational.clahs.vt.edu/trip/sample.html>

Child developmental and early education skills that can be supported with this App:

- Virginia Phonological Awareness Literacy Screening (PALS) (<https://pals.virginia.edu/>)
 - Phonological Awareness
 - Blending
 - Literacy Skills
 - Alphabet Awareness
 - Alphabet Knowledge
 - Letter Sounds
 - Word Recognition

Facilitator Ideas

Intergenerational

1. One adult and several children can work together at solving the word puzzles with the help of the picture clues.
2. An iPad can also be connected to an LCD projector to use as a group activity allowing different participants to take part solving the word puzzles.
3. Questions or conversations stemming from use of this app may inform subsequent activities (for example an activity that involves drawing some of the pictures depicted to help solve the word puzzles).

Single generation

1. Adults can work individually using the app to solve the word puzzles.
2. Children can also work individually or in pairs to solve the various word puzzles.
3. An entire class can participate using one iPad connected to an LCD projector.

Best Practices for Intergenerational Programming

1. Staff members of the adult and the child program collaborate to plan activities.
2. *Participants involved* in decision making about the activity and during activities.
3. Participants are *prepared* ahead of time and reflect on activity afterwards.
4. Participation is *voluntary*.
5. *Activities reflect interests, backgrounds, and social histories* of program participants.
6. Activities are age and role-appropriate.
7. Activities *support interaction* among IG participants.
8. Facilitators *skillfully stage the environment* to promote interaction.
9. *Adaptive equipment* is used as appropriate.
10. Facilitators *consider the social environment and the role of staff members*.
11. *Document & communicate* experiences to build upon in future activities.
