About our Club:

- The Sociology & Criminology club is for students majoring in sociology and/or criminology, or for those simply interested in the field! You do not have to be in either of those majors to join.
- The purpose of our club is to enhance students’ understanding of these respective fields and provide them with meaningful opportunities and experiences.

- Some of our past meetings include:
  - Detective from the Columbus Police Department
  - Agent from the Bureau of Alcohol, Tobacco, Firearms and Explosives
  - True Crime documentary night
What would you like from the club?

- We would love to gauge interest from our members for specific events and types of speakers that you would be interested in attending. On our new website, we have a “Contact Us” tab where you can submit ideas and get in contact with the executive board or you can also send an email.
- We want to see you!
  - Please upload pictures from events that you are comfortable with! This helps us share what our club is about and reaching out to more people that may be interested in the club.
- Please complete the form that will be sent out after this meeting as well—this will greatly help the exec board cater to you!
