

SELECTED BIBLIOGRAPHY

* As an imperfect rule, to be included in this bibliography, works have to have been cited several times. Works that are cited just once or twice are treated as “passing references,” for which complete bibliographical information is provided in the relevant footnotes, but the works do not appear in this bibliography. Also, note again that this first book belongs more to the history of ideas about Monte Albán than to engagements with the current scholarship on the site, and thus I have made no effort to include here the most up-to-date research, which is of course enormous.

- Acosta, Jorge R. “Preclassic and Classic Architecture of Oaxaca.” In *Handbook of Middle American Indians*, vol. 3: “Archaeology of Southern Mesoamerica,” volume editor, Gordon R. Willey; general editor, Robert Wauchope, 814-36. Austin: University of Texas Press, 1965.
