

ACCESSIBILITY TRAINING

Offered by the CFAES
E-LEARNING TEAM and ODEE

Are you able to see the number above? What would it be like to not have the ability to use a computer mouse? Is your course accessible to all students? These questions and more will be addressed at the Accessibility Training.

Date: October 21st

Time: 11:00am – 12:00pm

Places: 3 different ways to attend the training!

- **Wooster – on the ATI campus in Skou 30**
- **Columbus – in Kottman Hall room 102**
 - combined interaction with speakers at ATI through CarmenConnect and in person CFAES E-Learning team presenters
- **CarmenConnect:**

The CFAES e-learning Team would like to invite you to a presentation on accessibility. To show us how we can commit to accessible practices, ODEE's Accessibility/UDL Think Tank host **Jessica Phillips** will share why accessibility is important and how it impacts your job at the university.

Accessibility is absolutely crucial at universities like Ohio State. Imagine taking a class and being unable to read the textbook. Think about how hard your job would be if you could no longer use your computer's mouse. It is important to provide a better understanding of what accessibility entails so all employees can consider the perspective of every type of end user.

Join us as we explore what accessibility is, why we need to care about it and the first step we can all take to move toward accessible applications, processes and communications. In addition, detailed information about legal implications, suggestions for integrating accessibility into current procedures, demonstrations of accessible versus inaccessible content and critical questions for considering the user experience will be provided.
