August 27, 2024 & September 3, 2024

Join us to tour research plots and hear updates from Extension specialists on a variety of topics including pumpkin management, squash bug thresholds, the use of season-long row covers, watermelon pollination, melon variety evaluation, and more.

These events will also showcase a hands-on scouting and diagnostic clinic for growers to fine-tune their pest management strategies. Light refreshments will be provided.

This material is based upon work that is supported by the National Institute of Food and Agriculture, U.S. Department of Agriculture, under agreement number 2023-38640-39573 through the North Central Region SARE program under project number ONC24-155.
