

### Species Counts:

Species	Total
Big Brown Bat	18
Eastern Red Bat	17
Silver-haired Bat	18
Little Brown Bat	1
Unidentified Bat	6
Evening Bat	5
<b>Total</b>	<b>65</b>

### Bat Species Totals (2019-2024)

Species counts are from 2019-2024. Unidentified bat species are individuals that either escaped prior to capture or were unidentified due to missing data from the database.

### Age and Sex of Bats:

Sex	Total
Female	15
Male	10
Unknown	39

Age and sex of bats: Age of all bats brought in from Lights Out Columbus were identified in the database as adults. More females than males were identified, but more than half of the bats were unknown sex.

### Total Number of Bats Collected During Lights Out Columbus Seasons:

Season	Total
Spring	31
Fall	34

Lights Out Columbus typically monitors downtown in the Fall from mid-August to mid-November and in the Spring from mid-March to the end of May. This timeline fluctuates minimally each season depending on migration (if birds start to taper off during the end of the season, we may end it earlier than projected).

### Bats Per Year:

Year	Total
2019	12
2020*	2
2021	6
2022	10
2023	19
2024	16
Total	65

Total number of bats collected per year, with note that 2020 was the year of the pandemic and monitoring efforts were greatly reduced at this time.

### Fate of Bats Found:

Found as	Total
Alive	53
Dead	12

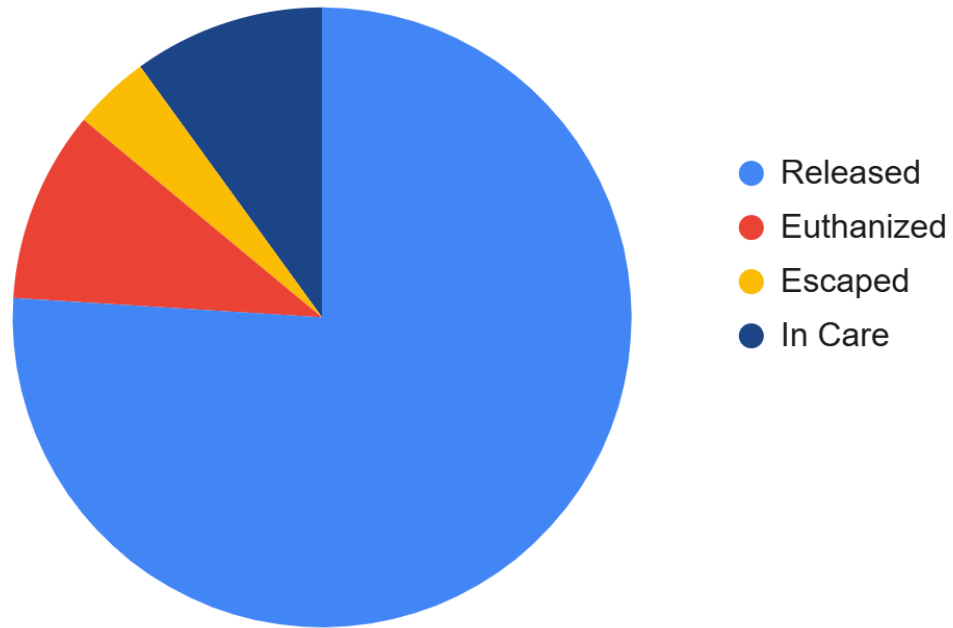

Volunteers (rabies vaccinated) collect all bats they find unless they are too far deteriorated and/or are very obviously deceased.

### Fate of Bats Found Alive:

Fate	Total	% of Total
Released	38	76%
Euthanized	5	10%
Escaped	2	4%
In Care	5	10%
Total	50	

The total differs from the table above (53 found alive) due to incomplete data in the database for 3 individuals.
