

I chose to create a portrait of me that shows all of the things I think really represent me as a person and have them take over the entire image to show that they make up who I am by copy and pasting photos that represents me and changing the opacity of them so a picture of me can show through. I included the Ohio State logo because obviously, I go to school there and it is the best school to go to. I transferred here from another college this year and every day, I realize that I made the best decision ever to transfer. I also included a sun because I love being outside and in the sun. Also, summer is my favorite season and I can be tan and drive around with the windows down.

During the summer I am able to play my favorite sport, golf. I have been playing it since my freshman year in high school and I work in the golf shop at a country club in my hometown as an intern. I always look forward to going back to the club because I get to teach golf, play golf, and be able to work with my friends from high school. Because of my love for golf and how my life pretty much revolves around it, I included it in my portrait.

I included the letters of my sorority because Alpha Gamma Delta is a big part of my life. I have met some of my best friends through it and my mom was in the same sorority so it is a special bond that we share. The picture of a family is in my self-portrait because my family is very important to me. My mom, dad, sister, and I are very close and they support me every day and are some of the funniest people I know. They support me as I pursue a business degree and want to work in sports marketing so that is why I put a briefcase in my photo.

Both the Indians and Cav's logos are in my self-portrait because I am from Cleveland and they are my favorite teams to watch. As a kid and still to this day, I love going to Cavs and Indians games and cheering them onto a win. Since I am from Cleveland, I live really close to

Lake Erie, my hometown is actually right on the lake, and I really enjoy driving down the road parallel to the lake and going to the beach with my friends so I included a picture of an anchor.

I included a picture of a dog because I love dogs so much and hope to have two golden retrievers when I am an adult. Finally, I included a pictures of an apple and the White House because the apple represents New York City as the "Big Apple" and the White House represents Washington D.C. and they are my two favorite cities in the world.
