

DON'T CALL ME DIRT!

KUBOTA LAB
Controlled Environment Agriculture

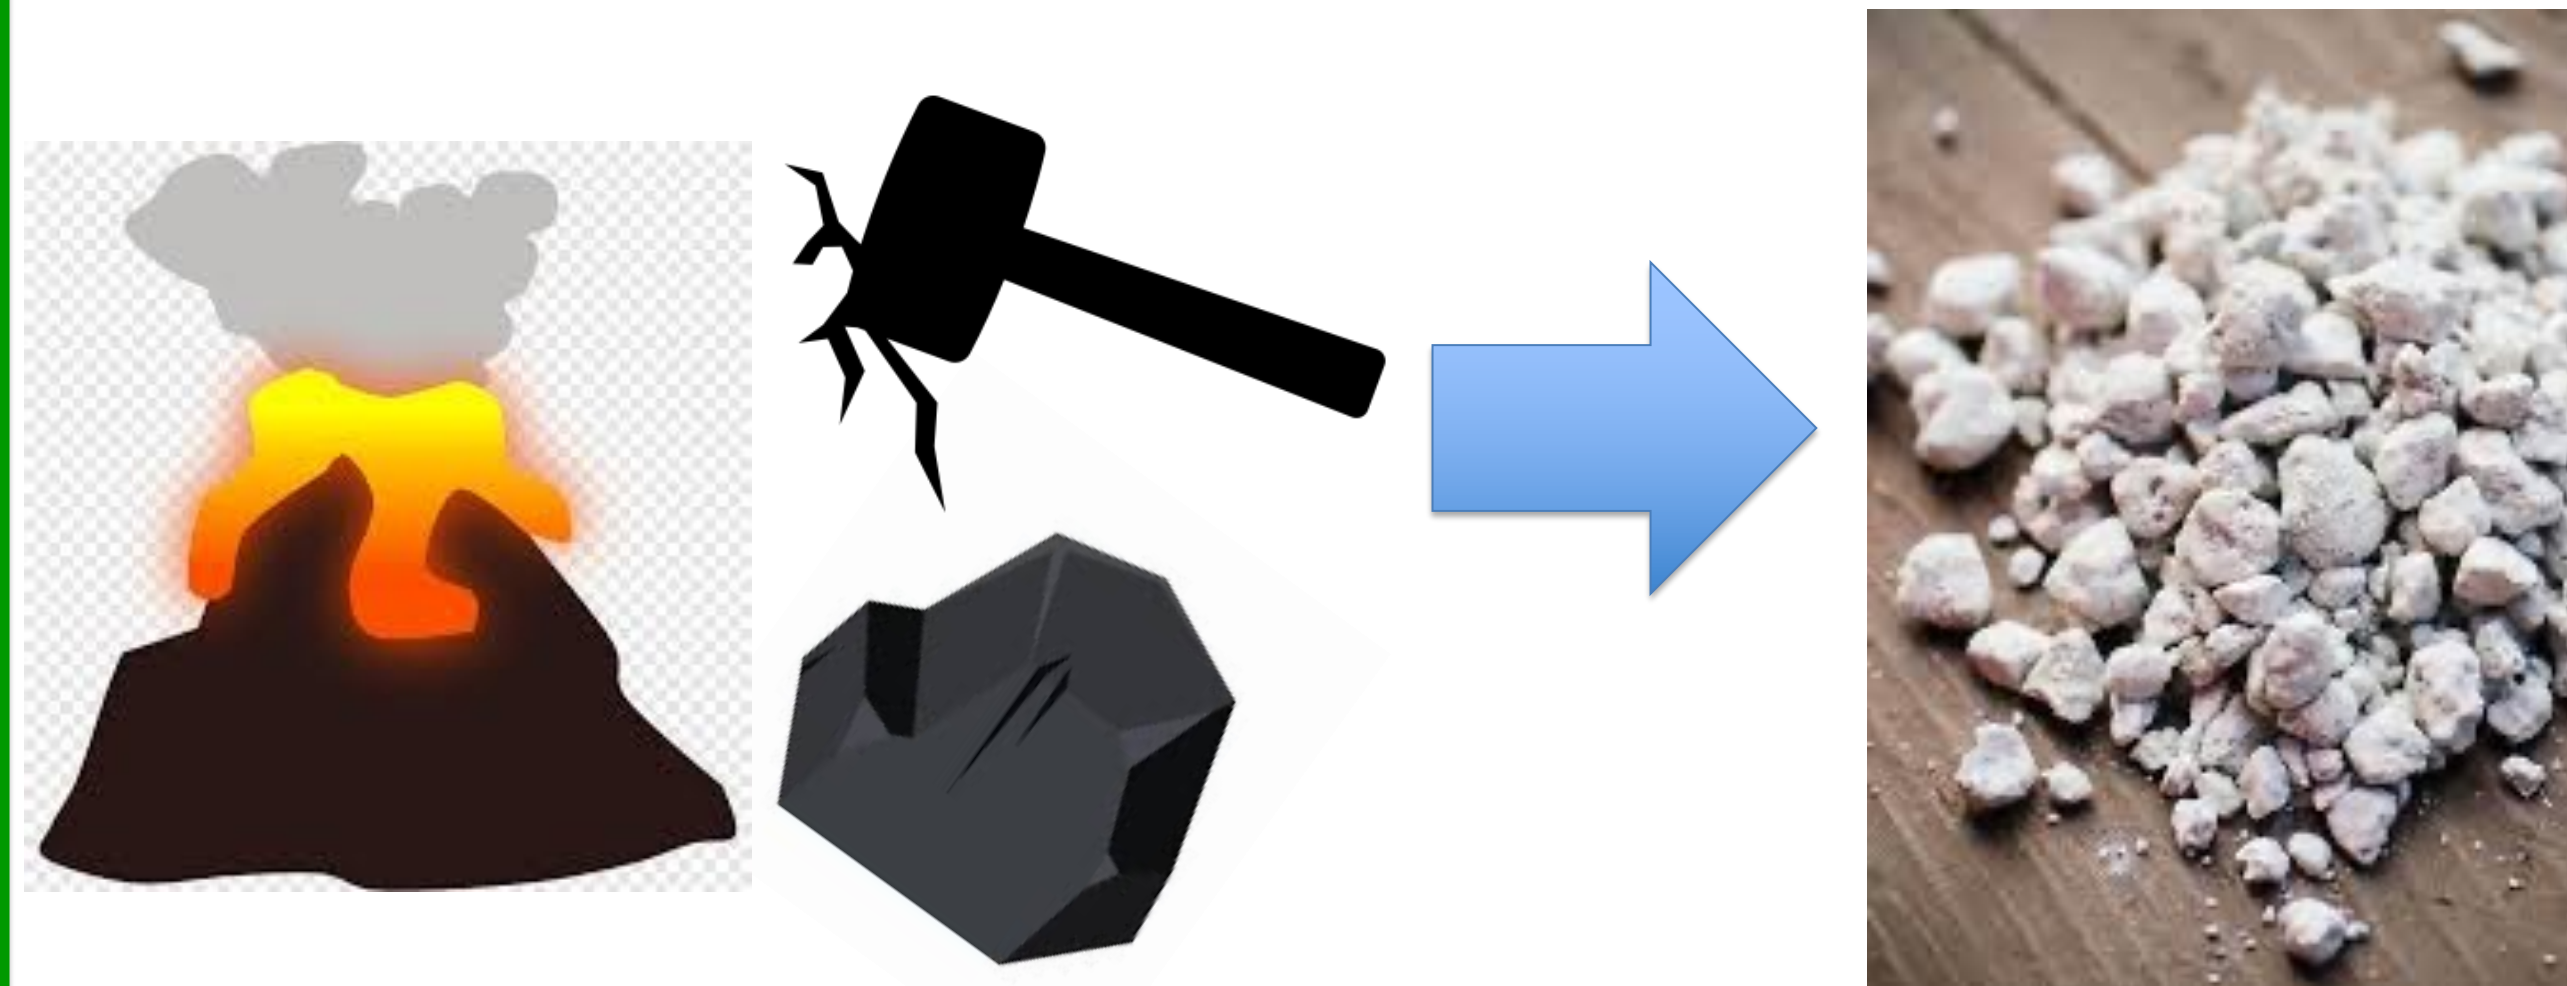

COCONUT COIR

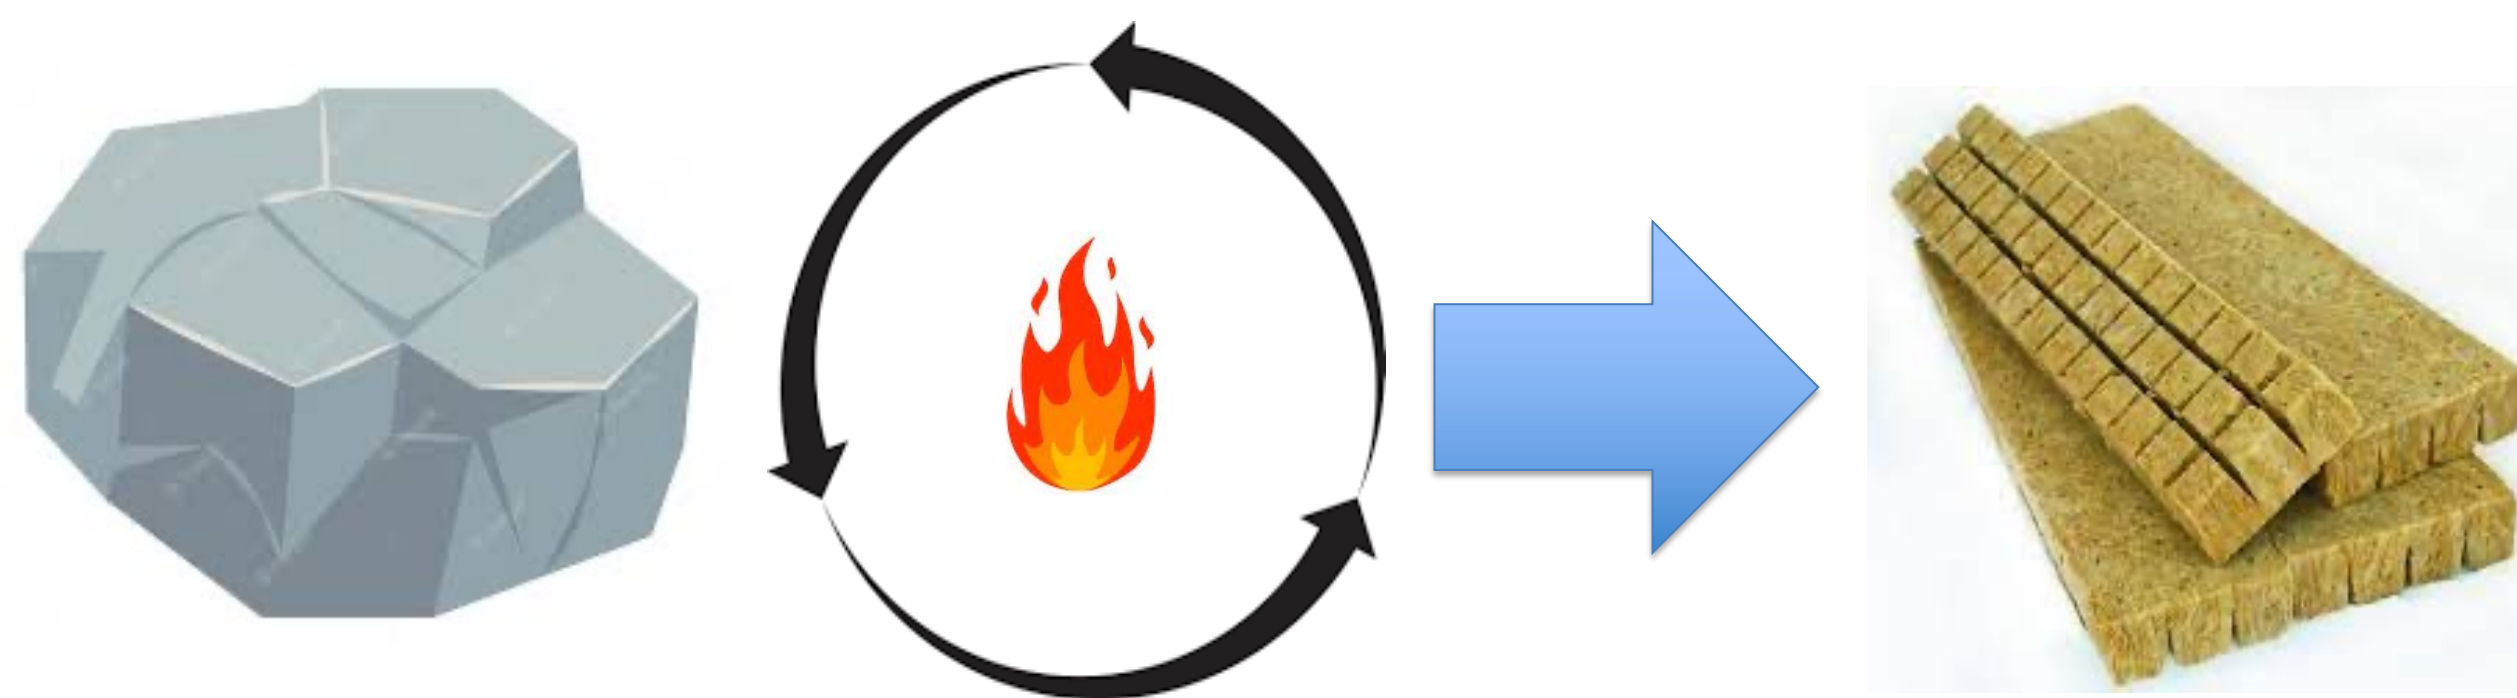

- ❖ Organic and Sustainable!
- ❖ Absorbs lots of water
- ❖ Compact
- ❖ From India, Sri Lanka, and Singapore

PERLITE

- ❖ Crushed volcanic rocks!
- ❖ Increases drainage

ROCKWOOL

- ❖ Most used substrate in hydroponics
- ❖ Very consistent quality
- ❖ Like cotton candy made from rocks

TRADITIONAL POTTING MIX

- ❖ Peat Moss + Vermiculite + Perlite
- ❖ Looks like soil... but it's not!
- ❖ Versatile and easy to use

We use lots of different **soiless** substrates to grow our plants!

Some are **organic** and some are **inorganic**.

Here are just a few!
