The Creators of Tomorrow

I am a medical student,

Studying medications until I become fluent.

Working hard to perfect my suture,

I am building tomorrow's future.

I am an athlete,

Running laps on my sore feet.

Creating new workouts on my computer,

I am building tomorrow's future.

I am an artist,

Beautifying a colorful garment.

Catering to the likings of my consumer,

I am building tomorrow's future.

I am a young 4H member,

Learning new things and taking on adventures

Through all these challenges I remain a trooper,

I am building tomorrow's future.

We are all trying our very best,

While our work is being closely assessed.

Trying to keep up while everything is becoming newer,

We are all building tomorrow's future.
