Written Poem

Building Tomorrow by Making the Best Better

Building the future by putting ourselves to the test
Using our heads to learn, grow, and be our absolute best
We work diligently on projects like animals and a 4-H-themed quilt
Knowing that when hard work is put in, grand champion animals or a best-of-class project can be built

Making the best better, by using our head

When building tomorrow's future, 4-Hers answer the call
Making Henry County 4-H the heart of it all
Hearts joined in friendship, our relationships will be lifelong
All it takes to construct that memory is the 4-H pledge and a silly Camp Palmer song

Making the best better, by using our hearts

Building tomorrow's future brick by brick
Using our hands to lay a foundation that will stick
Our hands work together to make Henry County a better place
Working through challenges we are taught to embrace

Making the best better, by using our hands

Building the future of Henry County 4-H is something we strive to do
It helps provides a healthy way of life for me and you!
We learn how to grow food and enjoy being outside
Exercising our body and mind, all while enjoying our favorite fair ride

Making the best better, by using our health

Using our heads, hearts, hands, and health to prepare
We are Building Tomorrow's Future at the Henry County Fair!
