

CBC DEMO LAB KICK-OFF NEWSLETTER

SPRING 2025

Welcome Back!

**QUALTRICS DEMO
ORDERING SURVEY IS
AVAILABLE NOW**

Welcome Back! We're excited to share the latest updates from the Demo Lab. Here's what's new and improved to help you bring chemistry to life in the lecture room.

Improved Demo Ordering Experience

We've made some significant updates to streamline your ordering process:

- **Alphabetized Demo Listings:** All demonstrations are now listed alphabetically for quick browsing.
- **Enhanced Website Features:** Visit our website (<https://u.osu.edu/cbcdemolab/demos-2/>) to search for demos by topic or class before placing your order.
- **Visual Updates:** Many demos now include videos or images to help you visualize the experiments. Additionally, all models are categorized and pictured for easier selection.

Remember, we require **three days' notice to fulfill demo orders**. Please plan accordingly to ensure your requests are honored.

Coming Soon:

Demo of the Week

Follow us on Instagram for our "Demo of the Week" series, resuming this semester!

Each week, we'll highlight a demonstration that complements lecture topics, enhancing the learning experience for students. Encourage your students to follow us to explore chemistry in action

- Updates on our latest outreach events and resources.

Weekly Demo Lab Newsletter

Keep an eye on your inbox for the Weekly Demo Lab Newsletter, featuring:

- A spotlight on demos tied to class topics.
- Links to the demo ordering survey and our updated website.

Thank you for your continued support

Let's make Spring 2025 an exciting semester!

Kind regards,
The Demo Lab
