We are standing at the letter U.

We invite you, to take a seat either inside or beside the Amphitheater while you listen to this recording to fully engage with this space.

Take some time to notice the portal at the center of the Amphitheater. This door originates from a Spanish monastery during the Renaissance.

Take a moment to acknowledge the symbolism of a door. You can open a door to let things in…. and you can close a door to keep things out! This suggests that we do have some control, and choice, over what news gets our attention.

Let’s continue together to open the door for more good news.

Head to Koret Garden Courtyard just below Privett Plaza.
