

Returning Student Room Selection

Dear Parent/Guardian,

We are reaching out with information on the returning student room selection process which will occur over the next several months. Your student was also sent a similar email today.

Based on information provided to our office your student *is not* subject to the residency requirement and is not currently expected to graduate before the start of the next academic year. To that end, your student **is not required to participate** in room selection. On campus housing is available, however your student must opt-in to participate in room selection if they may want to live on campus next academic year.

The opt-in period is **Monday, March 17 - Sunday, April 6**. To opt-in to participate in room selection your student will need to visit the myHousing portal and complete the opt-in steps. No opt-in requests will be accepted after April 6. Students who miss the opt-in period will not be able to participate in any portion of room selection but may select from available housing options in early August.

Opting in to participate in room selection *does not* obligate your student to living on campus next academic year - it only provides them the eligibility to participate.

A comprehensive room selection guide, detailing all room selection dates, deadlines, policies and procedures is attached to this communication. We hope that you and your student will review this guide to become familiar with the process.

Thank you for your partnership in your student's success. We hope your student will consider living on campus again this coming year!
