Returning Student Room Selection

Dear Parent/Guardian,

We are reaching out with information on the returning student room selection process which will occur over the next several months. Your student was also sent a similar email today.

Based on information provided to our office your student is subject to the [residency requirement](#) and is not currently expected to graduate before the start of the next academic year. To that end, your student **must participate** in room selection as they are expected to live on campus next academic year.

A comprehensive room selection guide, detailing all room selection dates, deadlines, policies and procedures is attached to this communication. We hope that you and your student will review this guide to become familiar with the process.

Thank you for your partnership in your student's success. We look forward to your student's return to on-campus housing next Autumn Quarter!
