### Virtual Value-Based Payment Summit

Mon & Wed January 24 & 26, 2022 [Register here](#)

Perhaps the most dramatic recent development in value-based care is the announcement by HHS Secretary Alex Azar that the Center for Medicare and Medicaid Innovation is launching “new, bold” models for value-based care. Azar is a proponent of the return of mandatory models and an emphasis on providers taking downside risk. This includes a recent HHS rule that overhauls the Medicare Shared Savings Program and pushes ACOs into two-sided risk sooner. Join the Summit to learn and debate strategies for success and best practices in the nation’s newly invigorated move to value-based care and in conjunction therewith how we can improve the quality, efficiency, and equity of care that is rendered to our patients.

Students can listen to one hour of the conference (can be two 30-minute sessions), and it can count as one co-curricular. Listening to at least one more hour of content can count as 2 co-curriculars. If you are attending two hours or more of content only one 250-word write-up is required for all. Load your reflection up on Canvas two times. The entire summit can only count as two co-curriculars.
