

Please note that all UCI Summer Session courses are UCI undergraduate credit courses. Students will be expected to meet the same academic requirements as their classmates who will be current undergraduates, and students will be graded according to the course instructor's rubric. All UCI Credit Courses count for UCI college credit which you must report to your future college alma mater.

Transferability of college credit is always determined by the receiving institution. UCI Summer Session is not an academic advising unit. We recommend that you speak with your high school counselor for recommendations and guidance. Our staff is pleased to provide guidance for navigating course details such as the schedule, instructor information, fees, pre-requisites and co-requisites. If you have any questions, please contact Christine Crow at (crowc@uci.edu)
