

Massachusetts K-12 Climate Change Challenge

Empowering Students to Shape Our Sustainable Future

Free Kickoff Workshops for Educators!

Join leading climate experts in this innovative, year-long program revolutionizing Massachusetts climate education! From elementary "Climate Detectives" to high school analysts, students tackle real challenges. Discover ready-to-use lessons, environmental project grants, and engage students in hands-on learning. Transform your teaching and empower climate-conscious citizens.

Key Benefits

- Seamless curriculum integration
- Real-world, community-based projects
- Support from leading environmental organizations
- Cross-curricular opportunities
- Professional development
