

# Healthcare Business Intelligence/Analytics Intern

## Our Company

At [Dimensional Insight](#) we're passionate about the potential to improve health and healthcare through information and technology. We've been recognized by [KLAS Research](#) as "Best in KLAS for Business Intelligence & Analytics in Healthcare" an unprecedented seven times. KLAS's research highlights how Dimensional Insight's healthcare customers lead the industry in harnessing analytics to improve patient outcomes and operational performance. Our company philosophy emphasizes the importance of ensuring the success of every customer.

## The Team

Our healthcare applications development team uses Dimensional insight's award-winning Diver Platform end-to-end analytics toolset to create solutions that help healthcare organizations gain valuable insights into their patient populations; improve operational and clinical performance; and manage the transition to new reimbursement models.

## Your Opportunity

As a Healthcare Business Intelligence/Analytics Intern, you'll work with a team of talented and dedicated professionals to design, develop, implement, and support reusable healthcare decision support solutions. To excel in this role, you'll need the following:

### Educational & Subject Matter Background

- Currently in a bachelor's or master's degree program with a focus on public health, healthcare or life sciences, and both course work in and a passion for data and analysis

### Technical Proficiencies

Required:

- Data analysis including experience with statistical modeling and analytical tools such as R, Python, Excel, MATLAB, Minitab, SAS & SPSS

Desirable:

- Web-based development tools such as JavaScript & Python
- Database design and development concepts including a familiarity with SQL
- Proficiency in visual design and presentation of quantitative information
- Experience with commercial visualization tools such as Microsoft Power BI, Qlik & Tableau is a plus

### Personal characteristics

- Passion: to make a difference in the health of others through technology
- Accountability: to always come through for your team and customers
- Communication: to clearly express yourself verbally and in writing
- Teamwork: to contribute to the power that comes from groups with diverse backgrounds and experiences
- Perseverance: to find a way to get the job done
- Integrity: to always do the right thing

If you think you have what it takes to join our team, we'd look forward to hearing from you! Please send your resume and a letter of interest to [jobs@dimins.com](mailto:jobs@dimins.com) with the subject: "Healthcare Business Intelligence/Analytics Intern".
