

Planning the Rec Belt

Key

Boi Braai Amphitheater

General Thoughts:

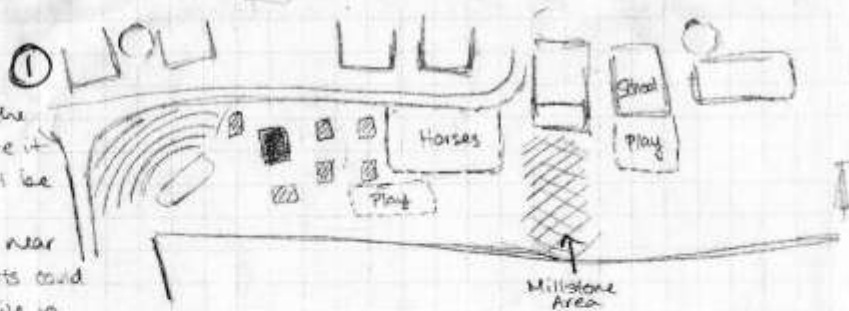

-According to Hudson, the pool should stay where it is, otherwise may not be rebuilt

-Tried to keep play/rec area near braai/picnic areas, so parents could keep an eye on kids while in the same general area

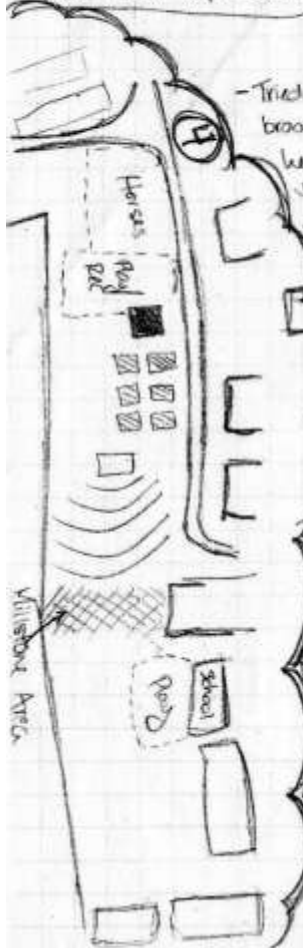

-Tried to keep horses along the road, people going through village may like aesthetic appeal of see animals as they walk by

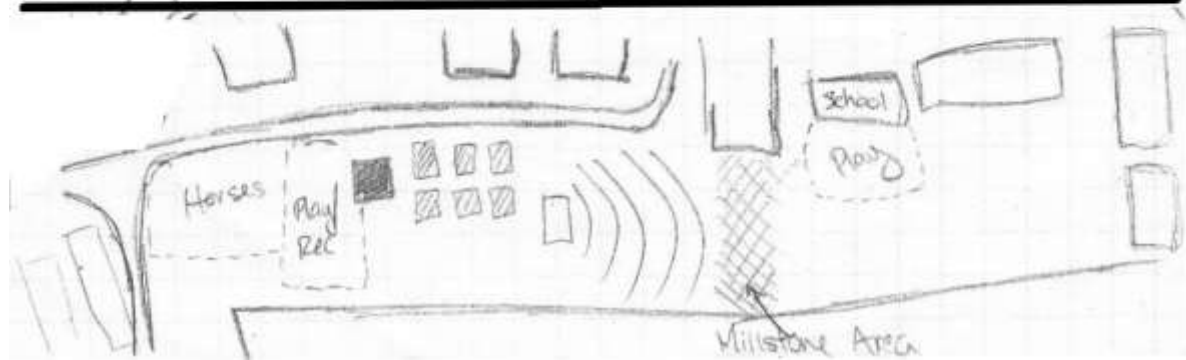

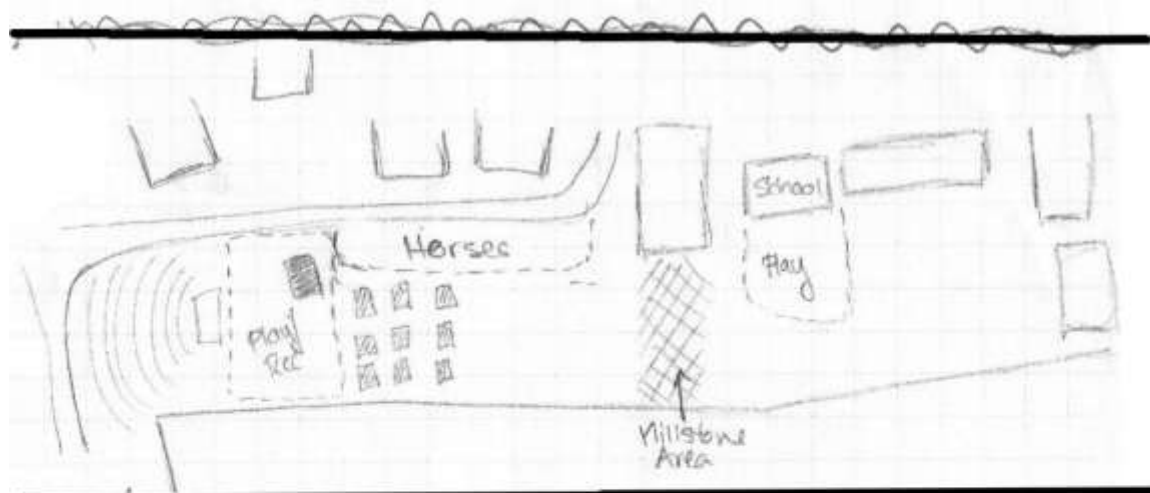

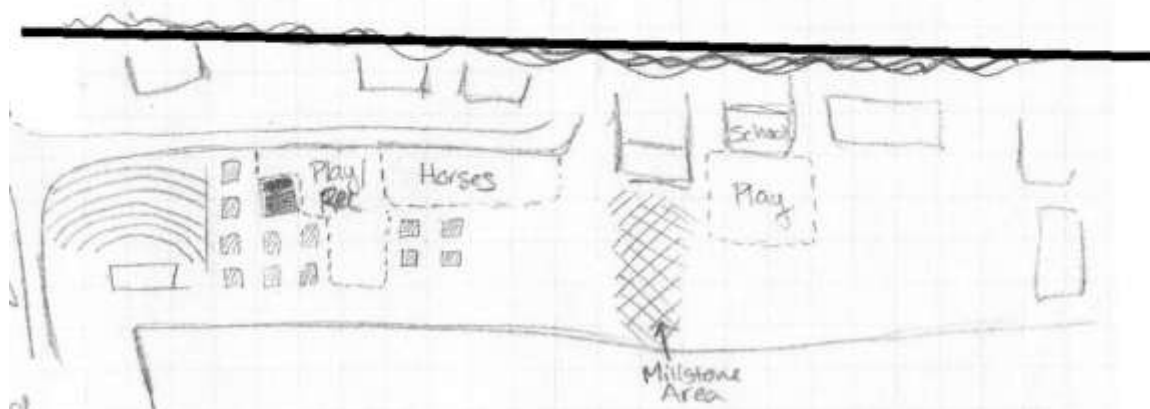

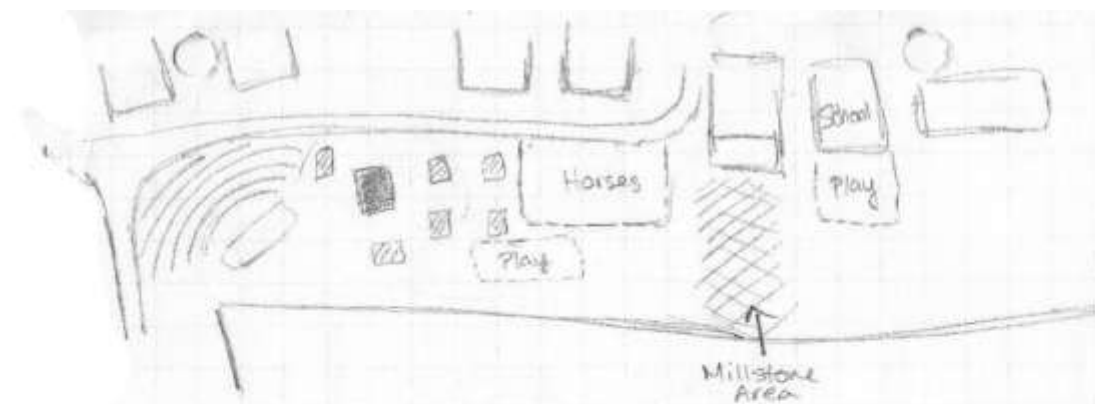

-Feel as though amphitheater should stay near more commercial locations but could go anywhere

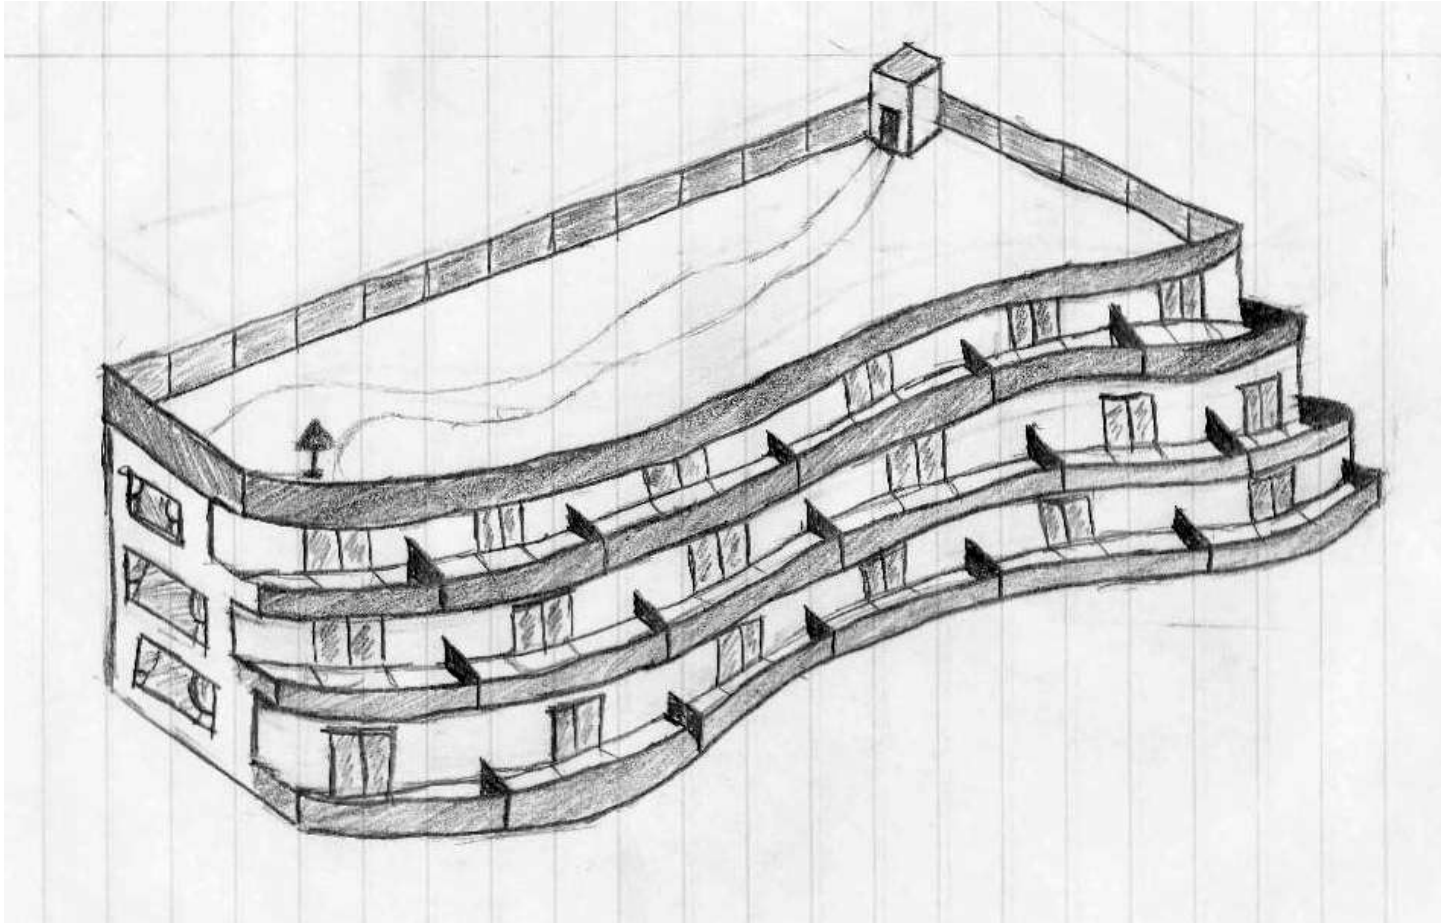

-If school ends up there, it should probably have its own separate playground/play area so kids don't go wandering too far

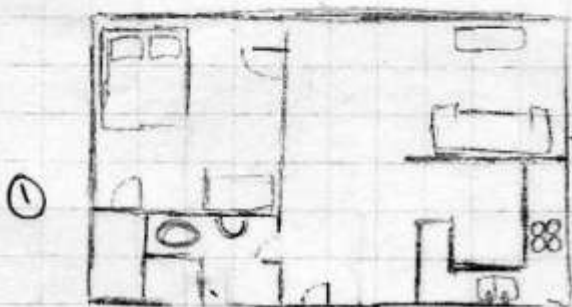

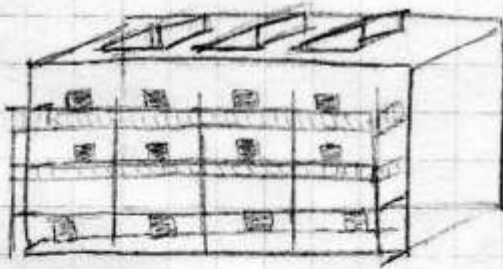

Personally like this one best

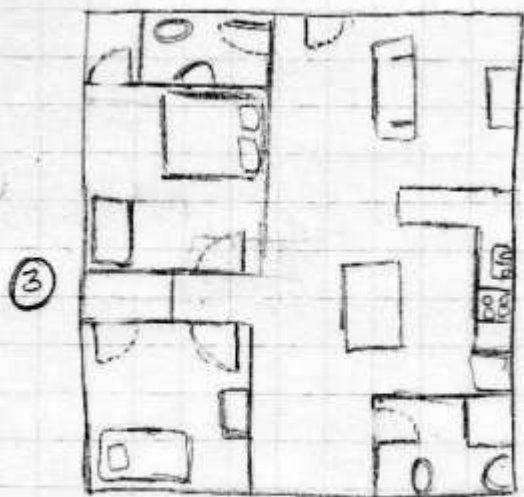

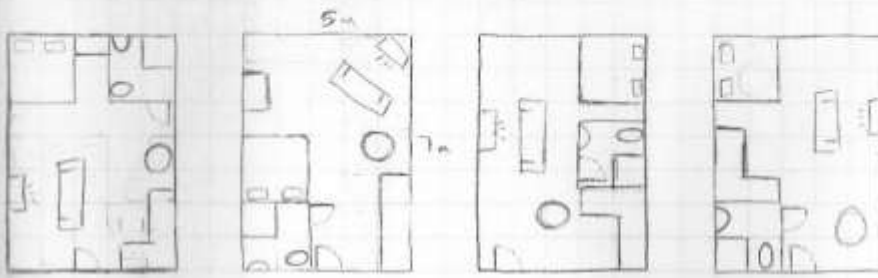

1 bedroom

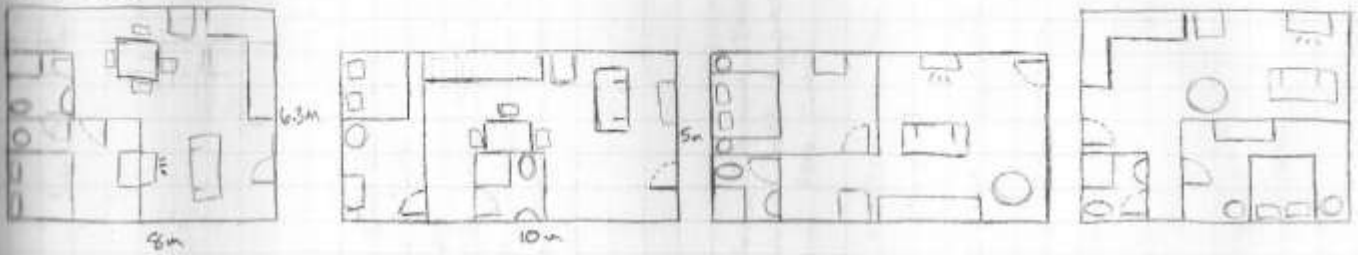

2 bedroom

Bachelor : 55 m²

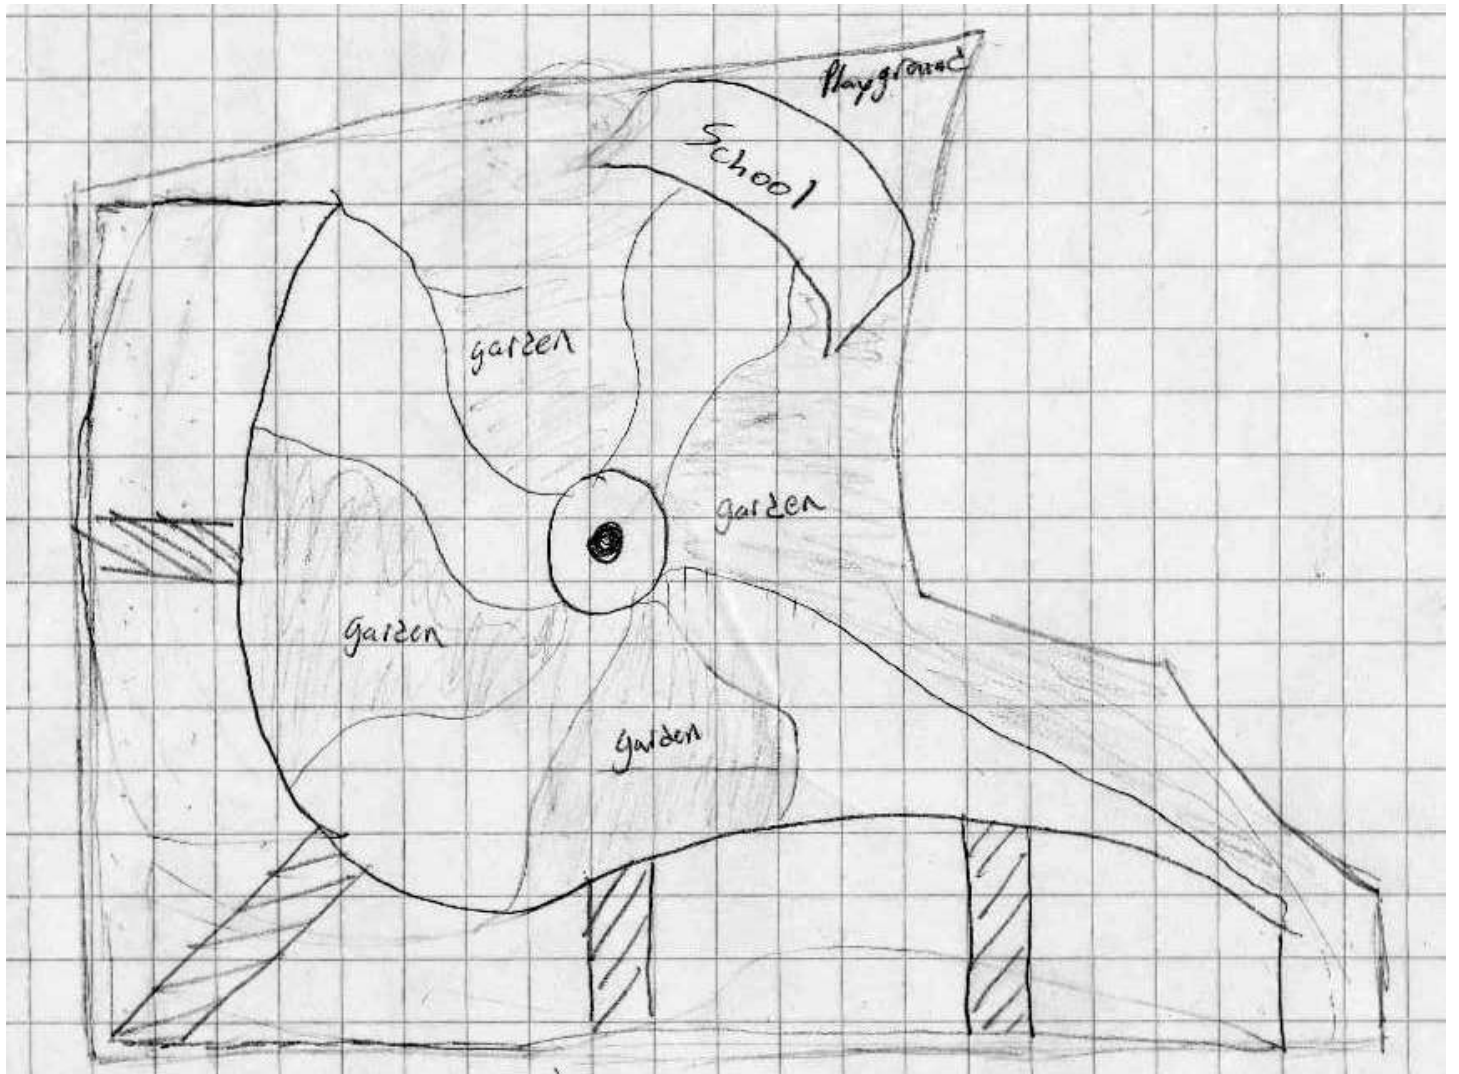

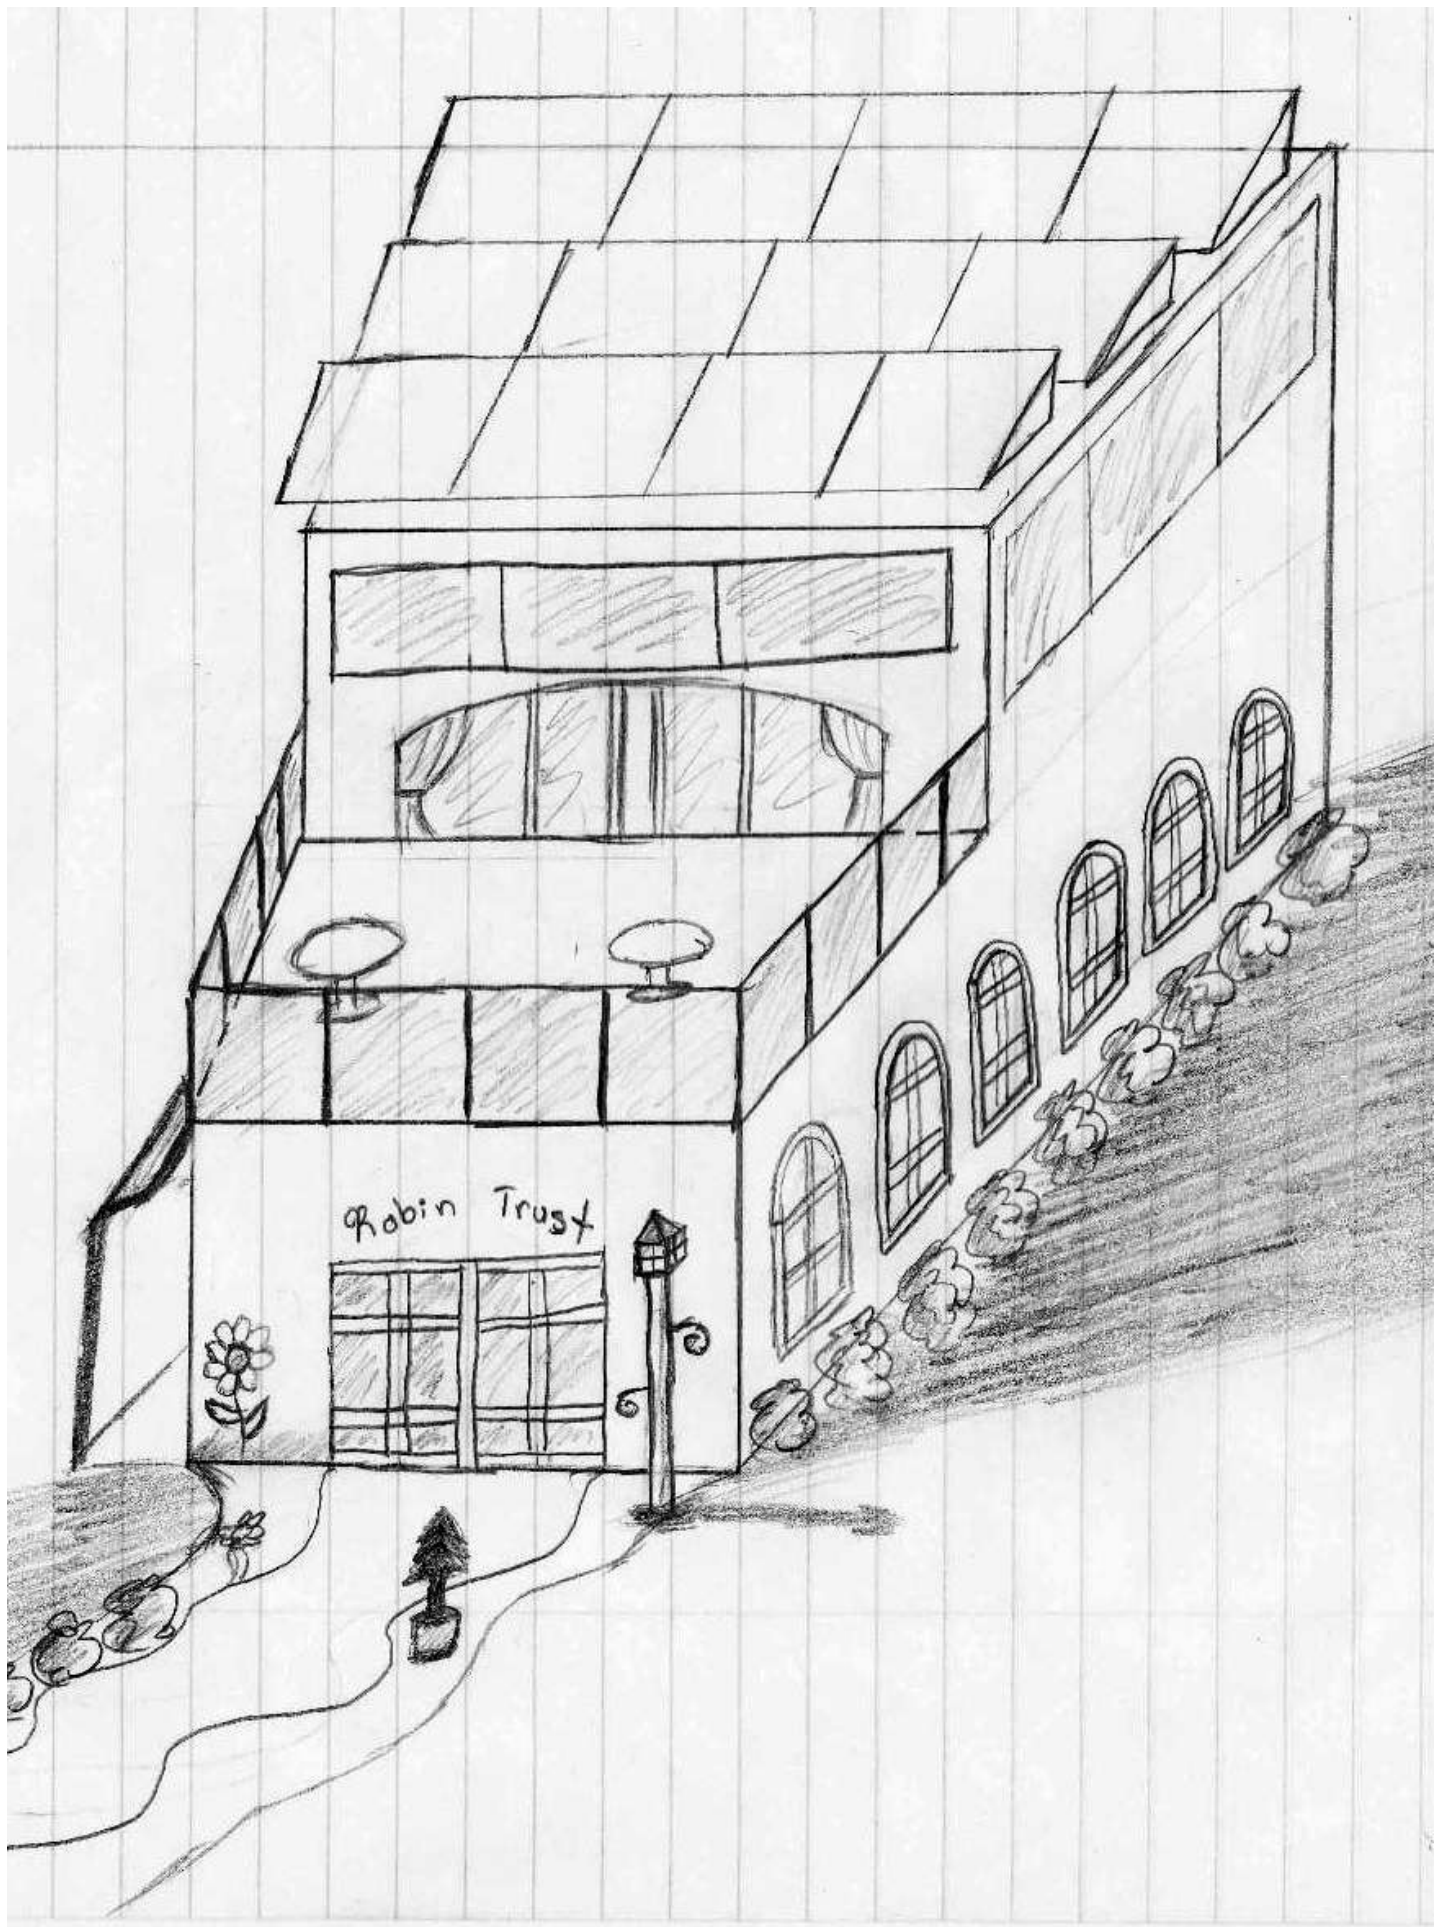

1 Bedroom : 50 m²

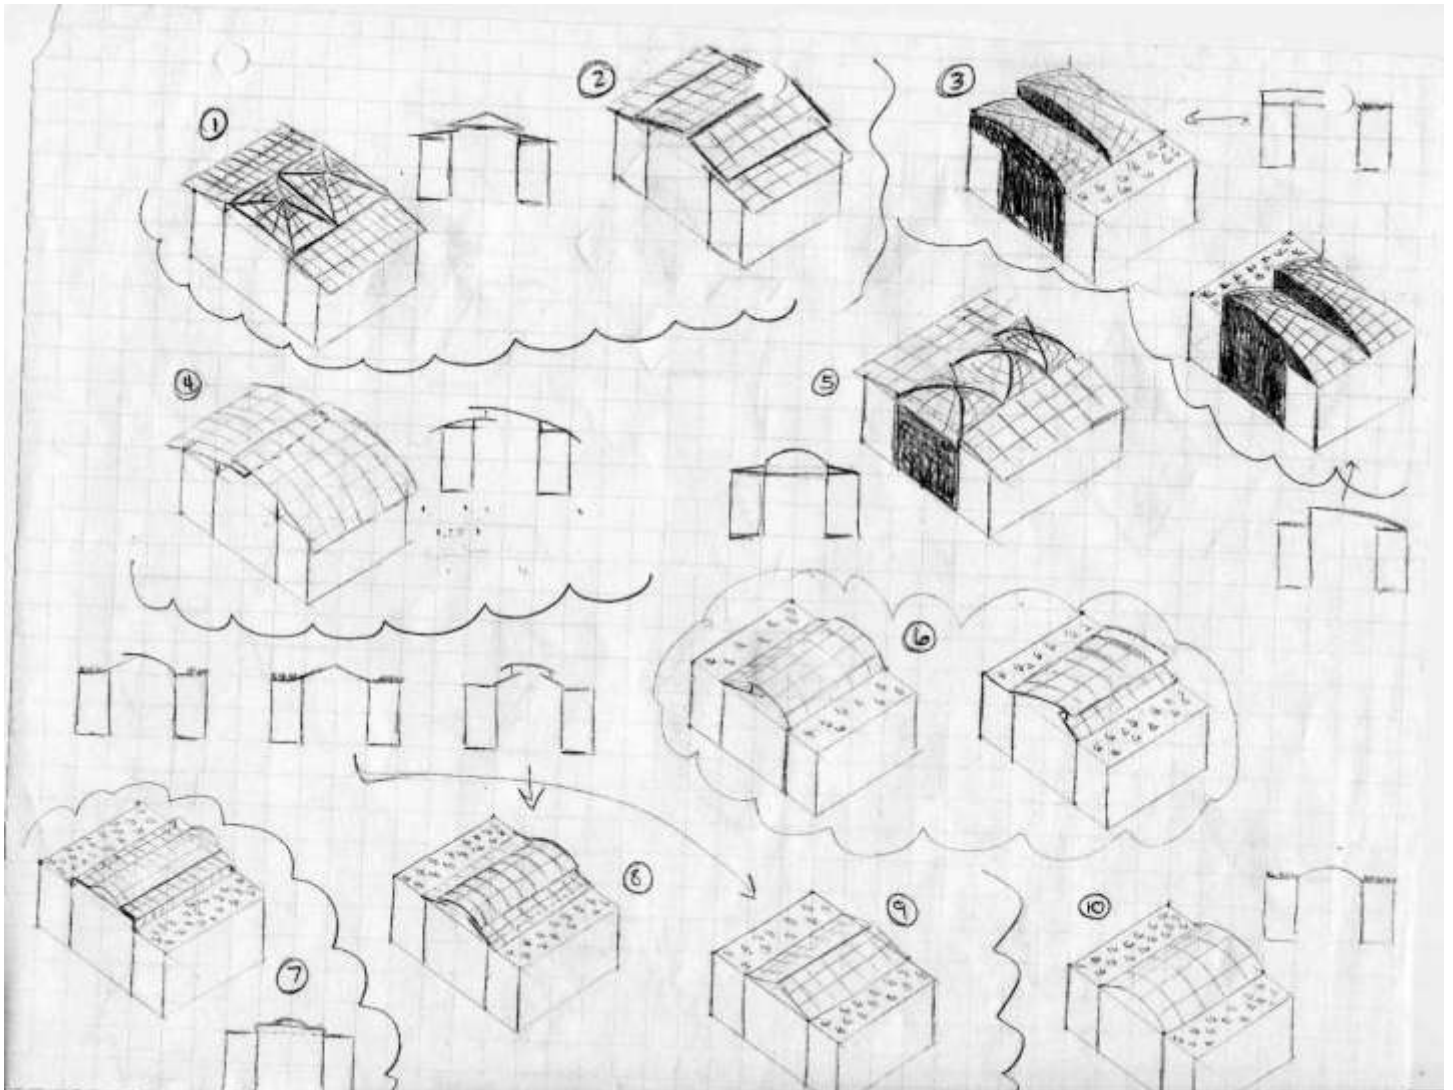

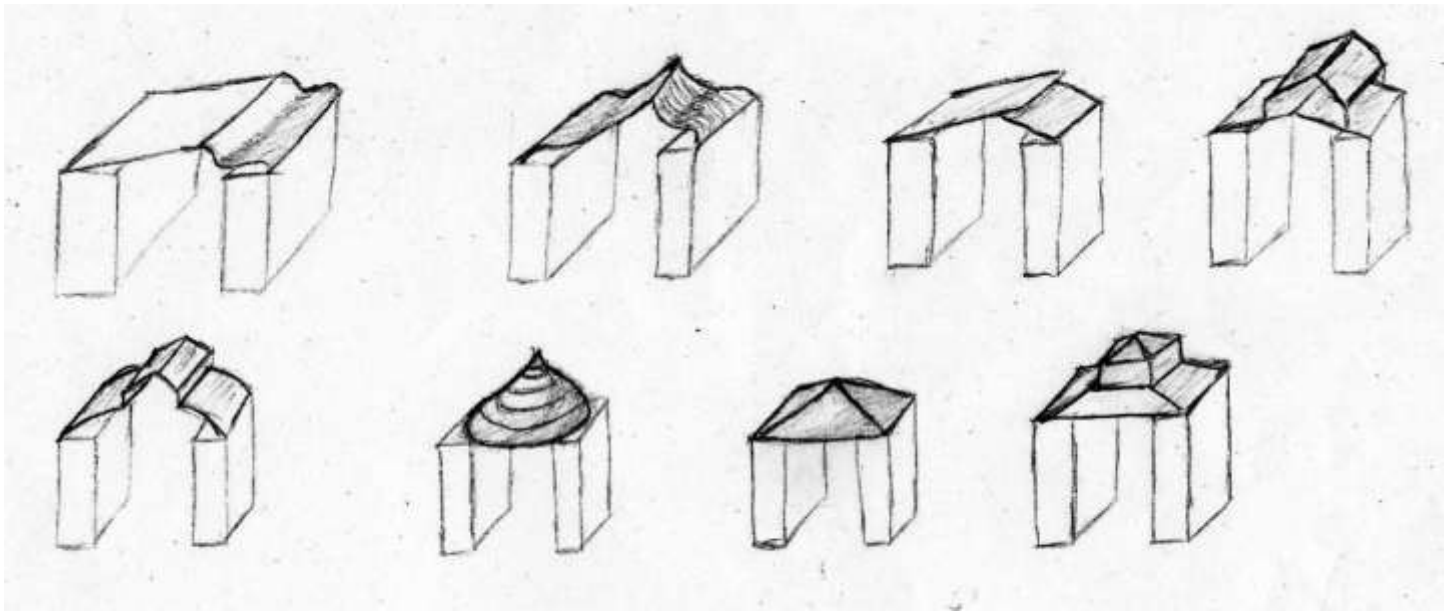

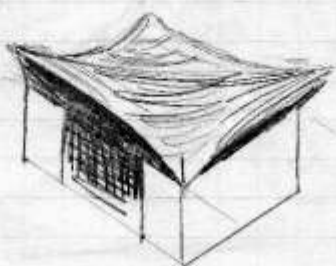

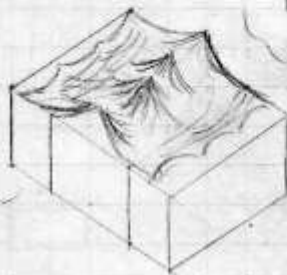

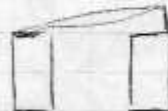

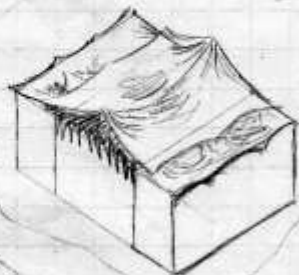

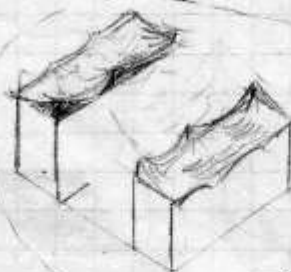

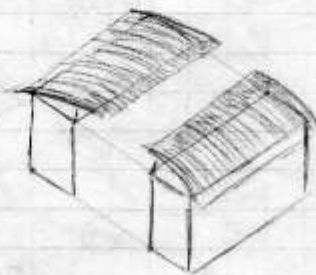

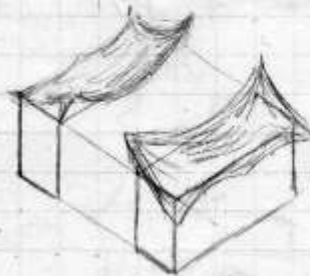

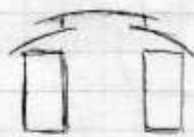

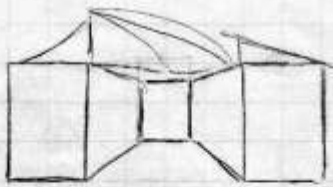

2 Bedroom : 75 m²

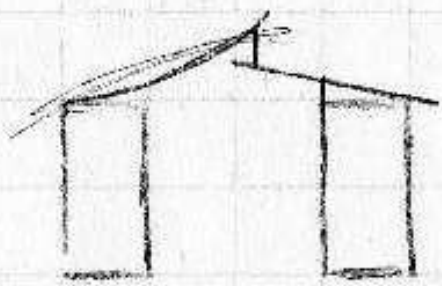

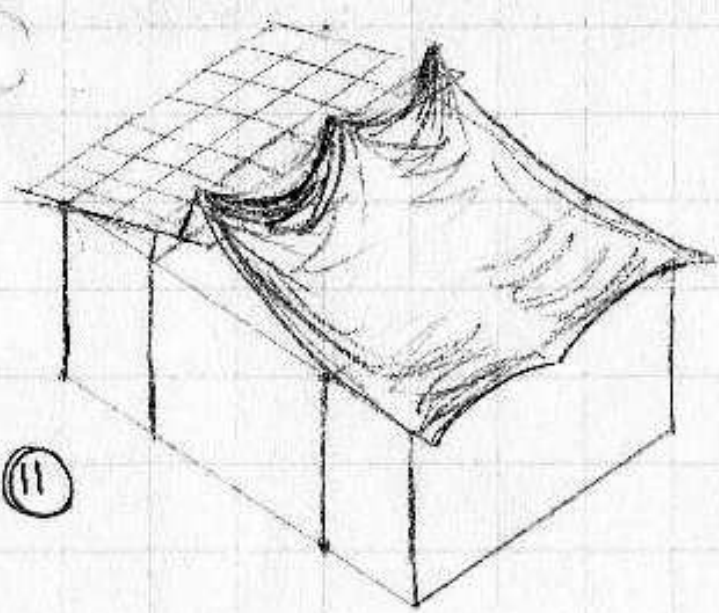

Tensile Structures

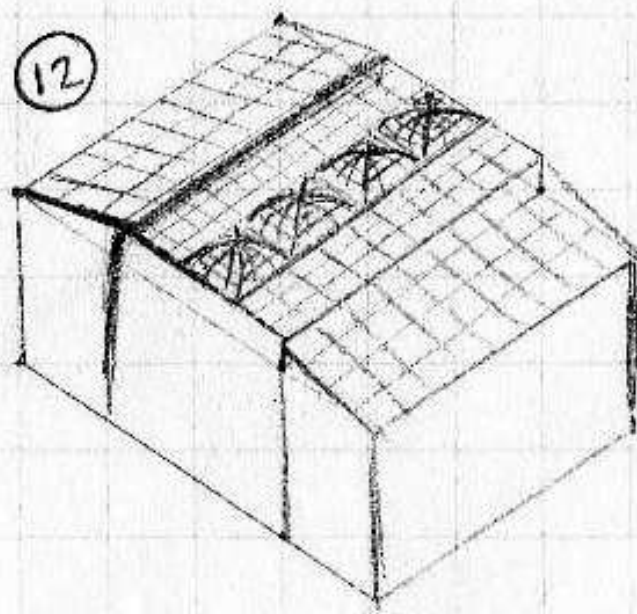

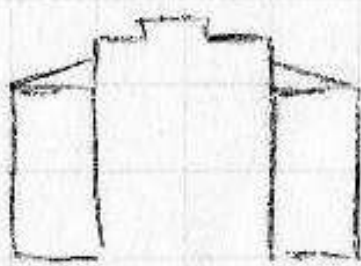

- would need artificial lighting within
- would add ~ another story of height → block with few
- would seem "alien" compared to other structures around it

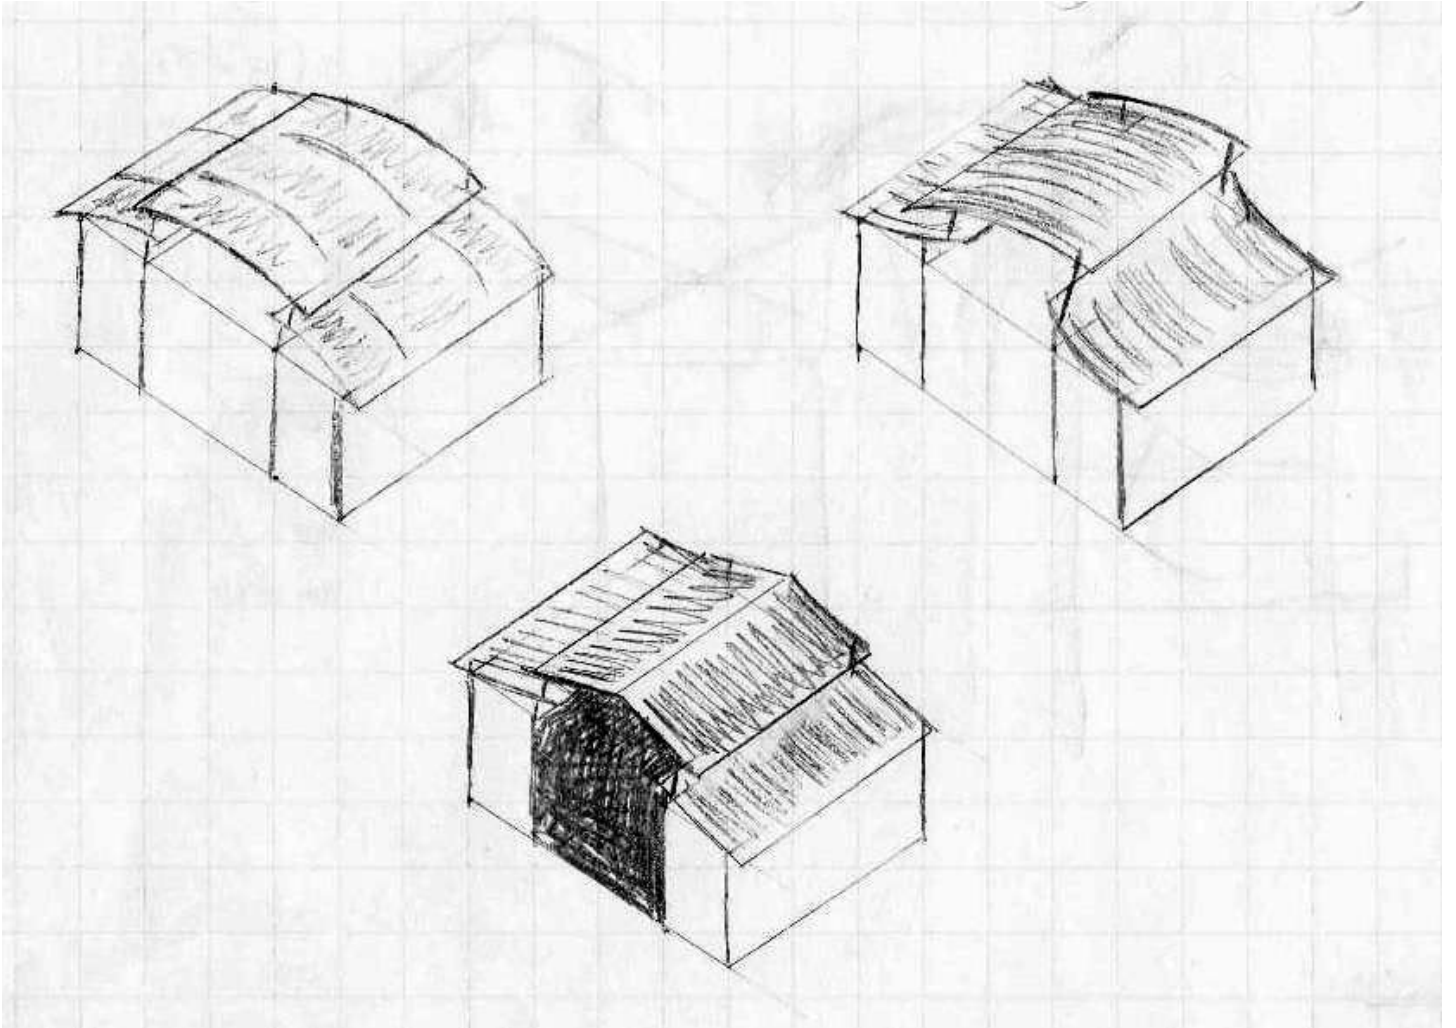

11

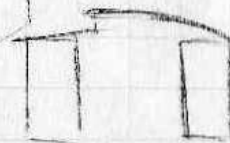

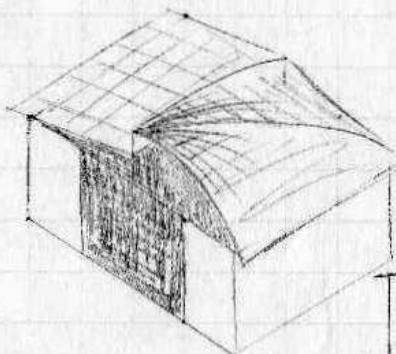

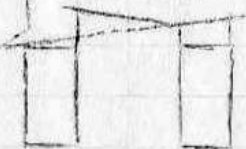

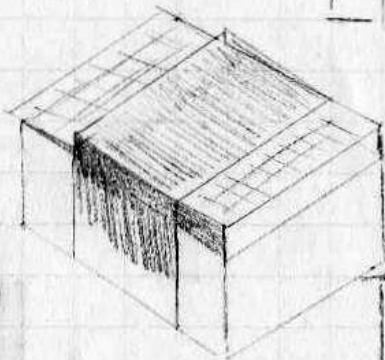

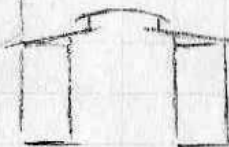

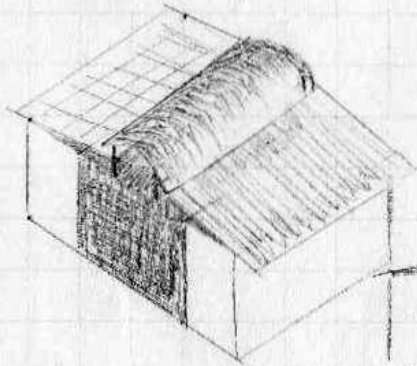

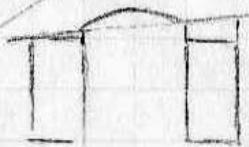

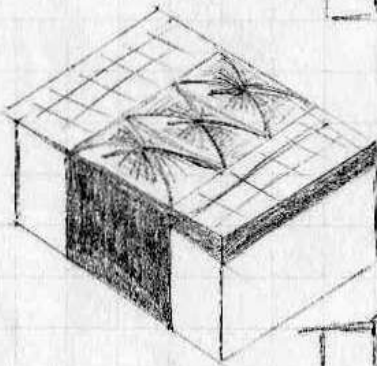

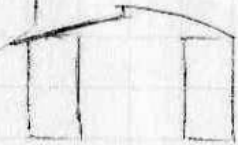

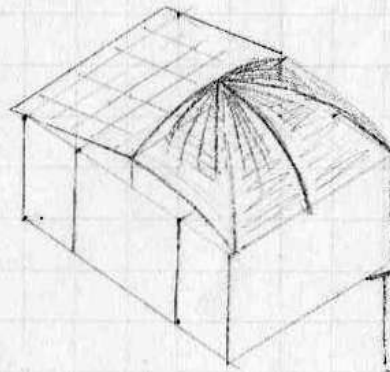

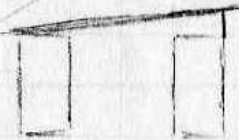

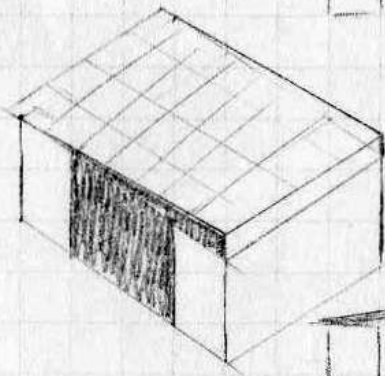

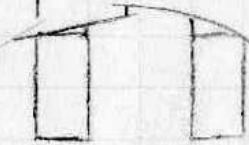

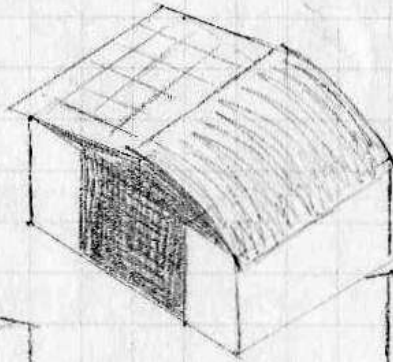

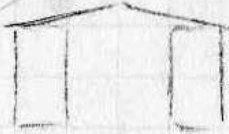

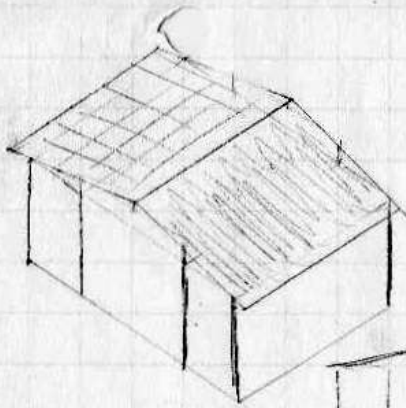

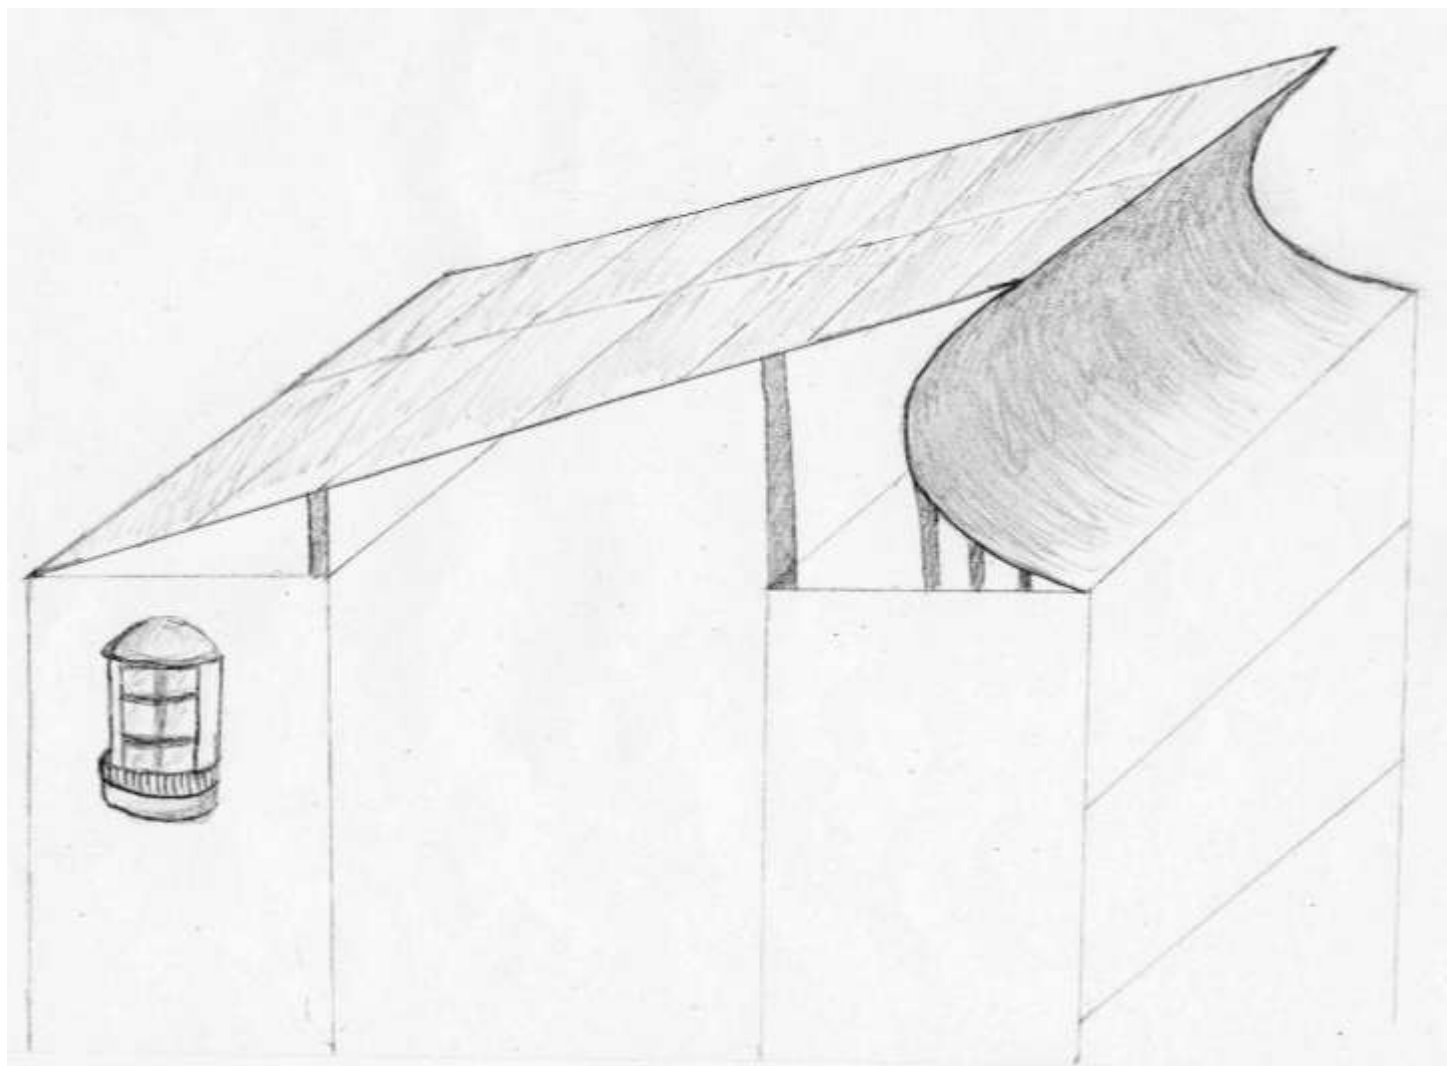

12

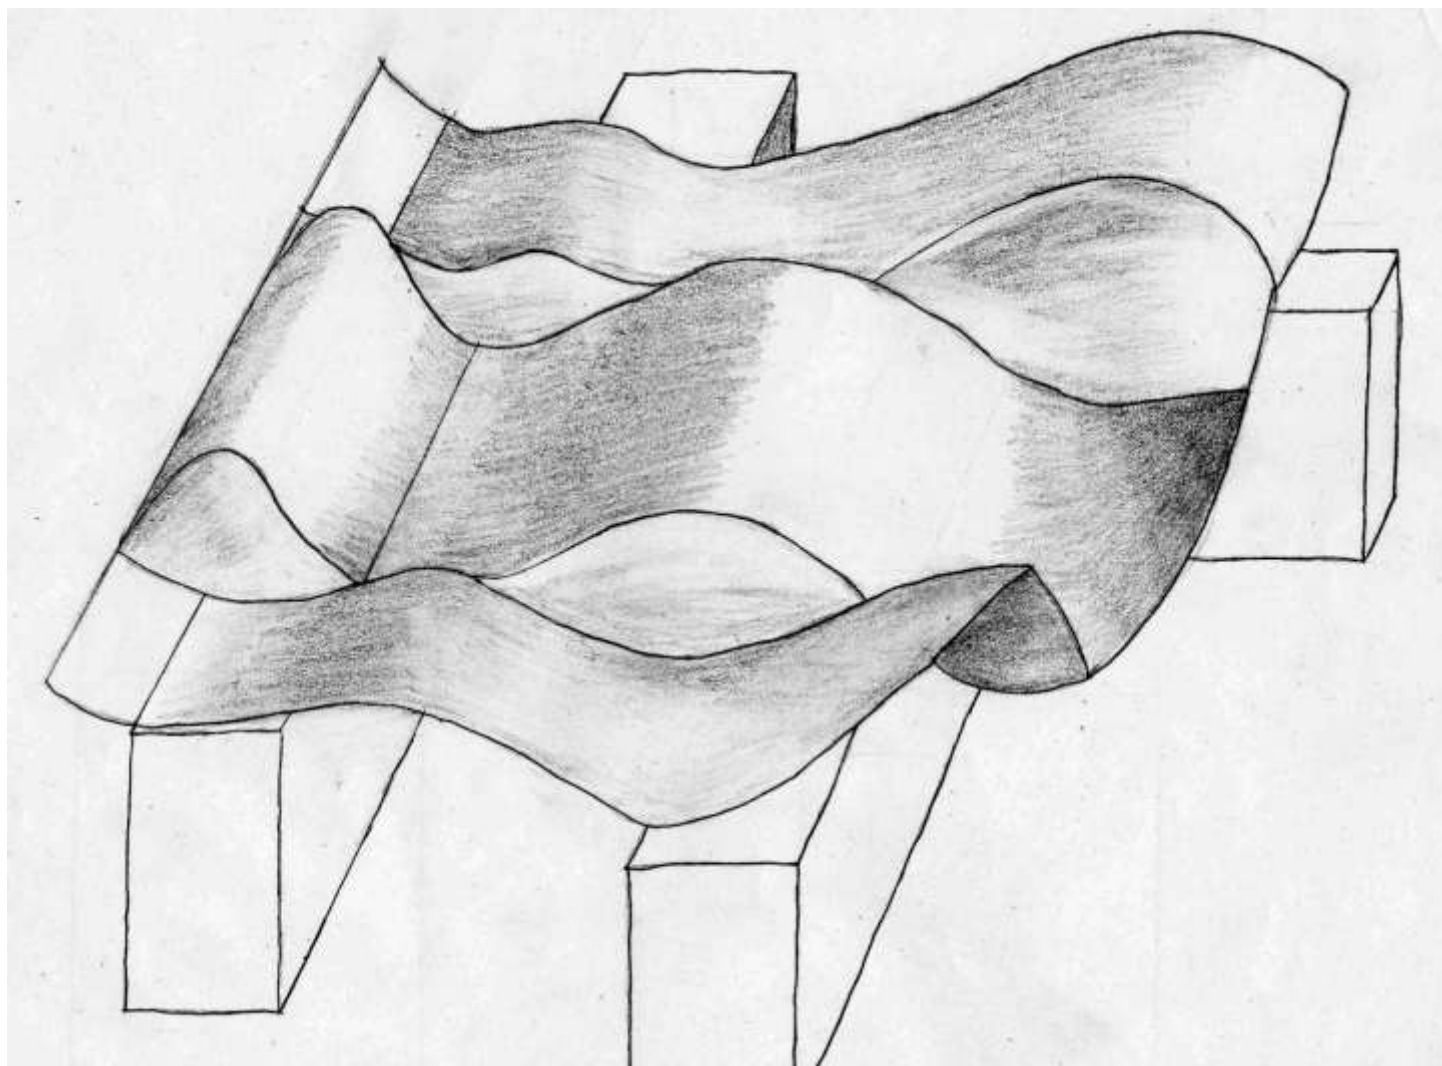

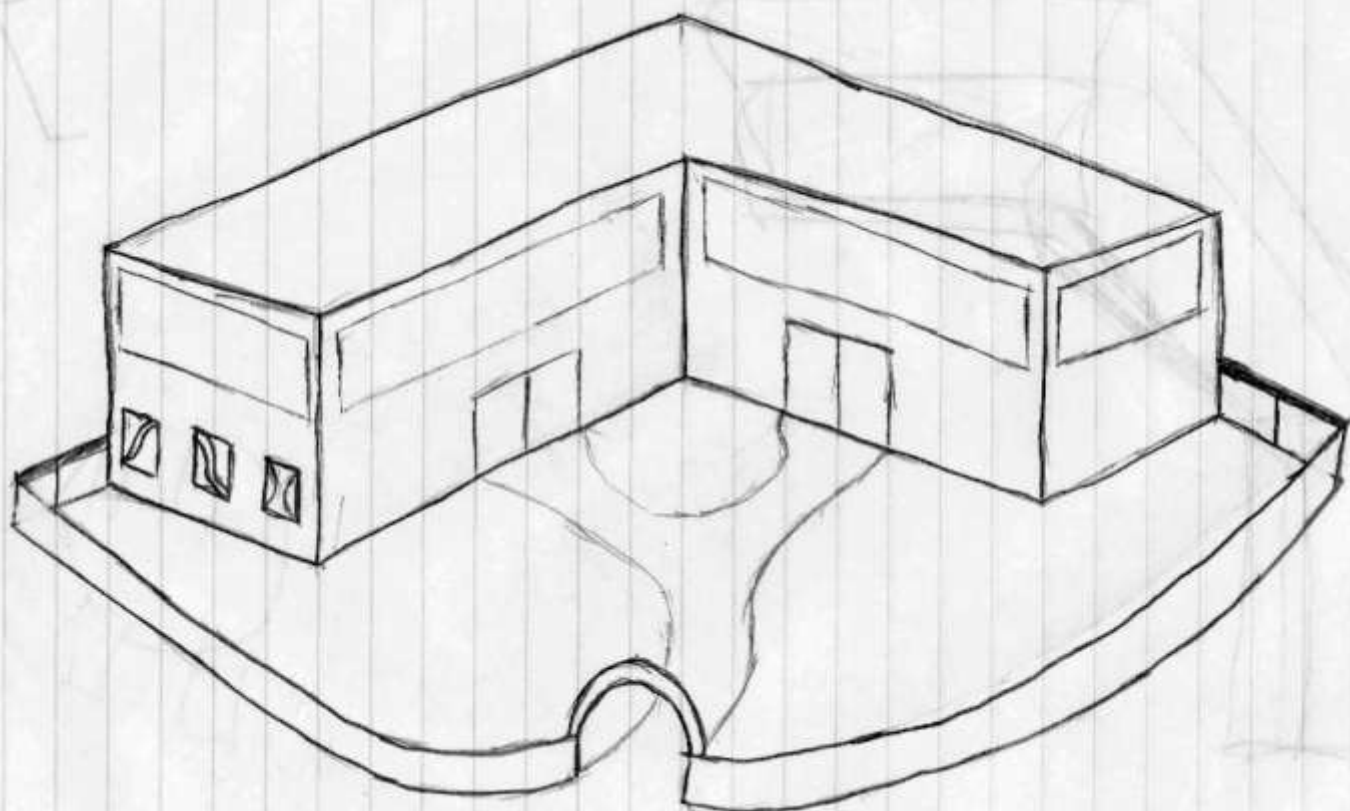

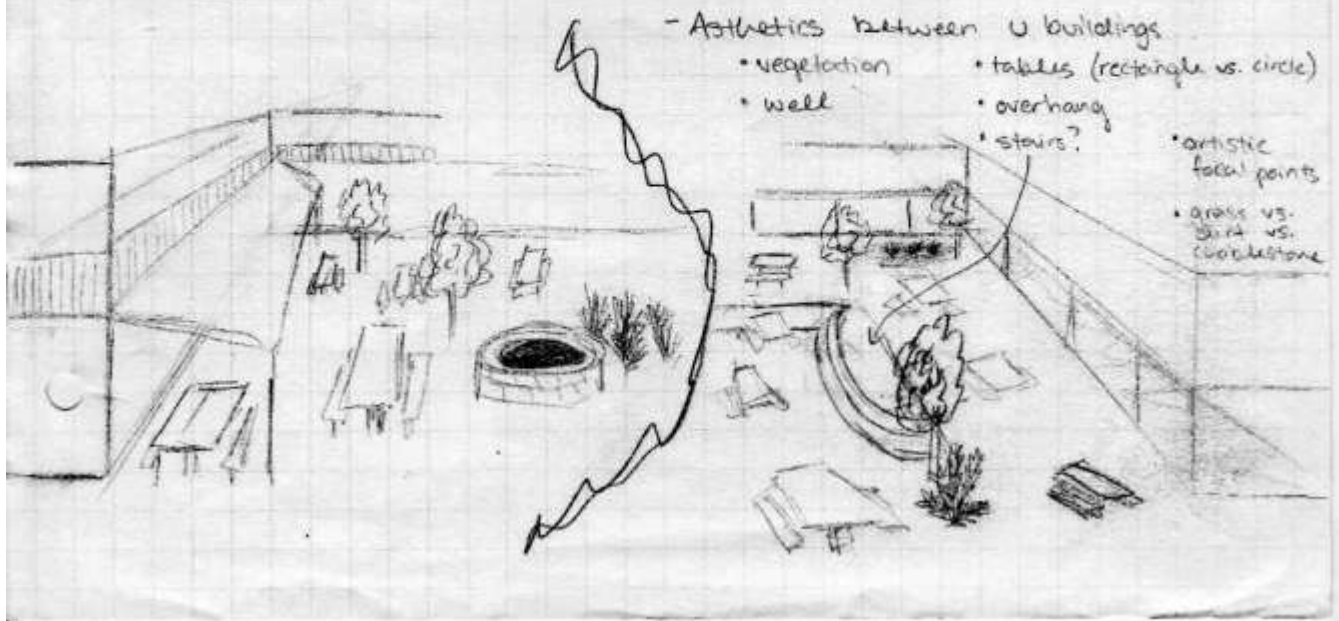

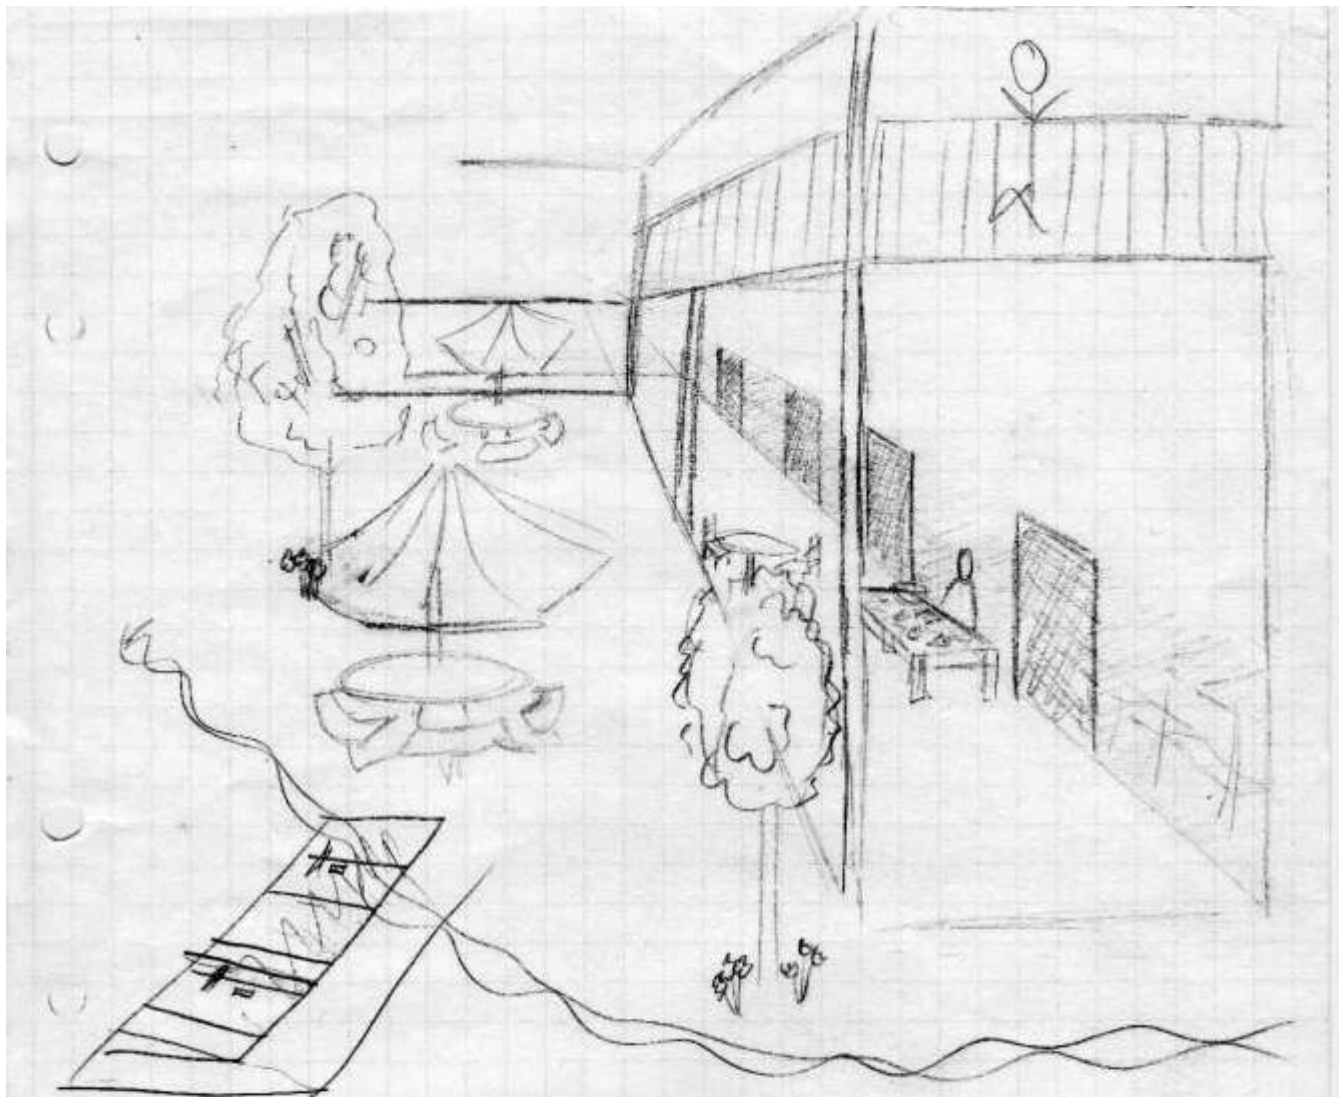

Roofing → 1/2 side
→

- Aesthetics between U buildings

- vegetation
- tables (rectangle vs. circle)
- well
- overhang
- stairs?

• artistic focal points

• grass vs. dirt vs. cobblestone
